Whaling in New Bedford

The concept behind this book was brought upon by its name Scrimshaw. As the editor and I were exploring what theme would encompass this year's publication we investigated many ideas; from using quotes with a scrapbook type theme to using art. Then we suddenly realized something was missing. "What exactly does scrimshaw mean?" we wondered. Now I do realize that a large majority of you know what the word means, especially if you grew up in New Bedford and the surrounding areas. We, having no prior, in-depth knowledge of whaling, had not one clue.

We then realized the importance of the whaling industry to the region. This affected us because it shaped what eventually became UMass Dartmouth by supplying New Bedford with money to prosper and allowing for educational facilities to emerge from the city's wealth, like New Bedford Textile School and Bradford-Durfee Textile School in Fall River.

The importance of Scrimshaw within this is the idea that it was treasured by the sailors and sailor's wives. It was one of their only pastimes while they were on the ships. It became a symbol of their voyage through the sea, just as this book will become a symbol of your voyage through UMass Dartmouth.

– Jill Anne Delahanty
Layout Editor

In 1755 New England's whaling industry was spreading to ports including New Bedford, a place which was to become the leading whaling port in the country. Joseph Russell, founder of the town, first engaged in the trade. By 1774 the American fleet had 360 vessels in total & 4700 men employed. Of these ships 300 sailed out of Massachusetts.

These ships returned with 30,000 barrels of oil which earned around \$267,200. The prospering of whaling in America was soon brought to a halt by the start of the revolutionary war.

The war caused the fleet to fall prey to the British by capturing, burning or sinking nearly all the ships. New Bedford had 40-50 whalers at the outbreak of the war and lost 34 of them in one raid in 1778. This happened all along the coast at all the major ports.

This caused the American whaling industry to be virtually nonexistent until 1815 when Nantucket dispatched 48 whale ships and New Bedford 19. Because these examples survived and prospered so rapidly it encouraged other towns to enter whaling again.

Whaling became of large importance to New England's economy. In 1833, 392 American vessels were at sea, 1,000 men employed, and a \$4,500,000 annual income was brought in. Many people owed their livelihood to the trade profit. Thus, began the Golden Age of whaling which lasted 25 years.

Design Theme

In 1842 the American fleet accounted for 652 of the world's total of 882 ships engaged in whaling. It was at a high and in 1846 the number began to decline, even though there were still a great many occupied in pouring wealth into New England ports. Whale products reached their highest of value \$10,730,637 in 1853.

Because of the improvements in whaling, fewer whales could escape. The whaling grounds were being overfished, resulting in a decline in numbers of whales and so forcing the ships to sail longer voyages in search of their prey or return home with nothing. This caused whaling to become so uneconomical that a capital investment in the trade was considered too great a risk. New Bedford, the greatest whaling port in the world, whose existence was owed to the whale, witnessed the beginning of a cotton industry in 1846. This, in time, would usurp the whaling trade's prime position in the town's economic structure.

Another problem was the opening of the West. Many young men would rather earn their fortune and have their adventure in the wild west than on the lonely sea. And who could forget the Gold Rush in 1849. Many whaling ships turned passenger liners to the shores of California. Complete crews were lost to the smell of gold when they arrived.

Somehow whaling survived the gold rush and even began off the coast of California. It also was not greatly effected by the financial sump of 1857, but it did face a major crisis with the beginning of the Civil War, as it did with the Revolutionary War.

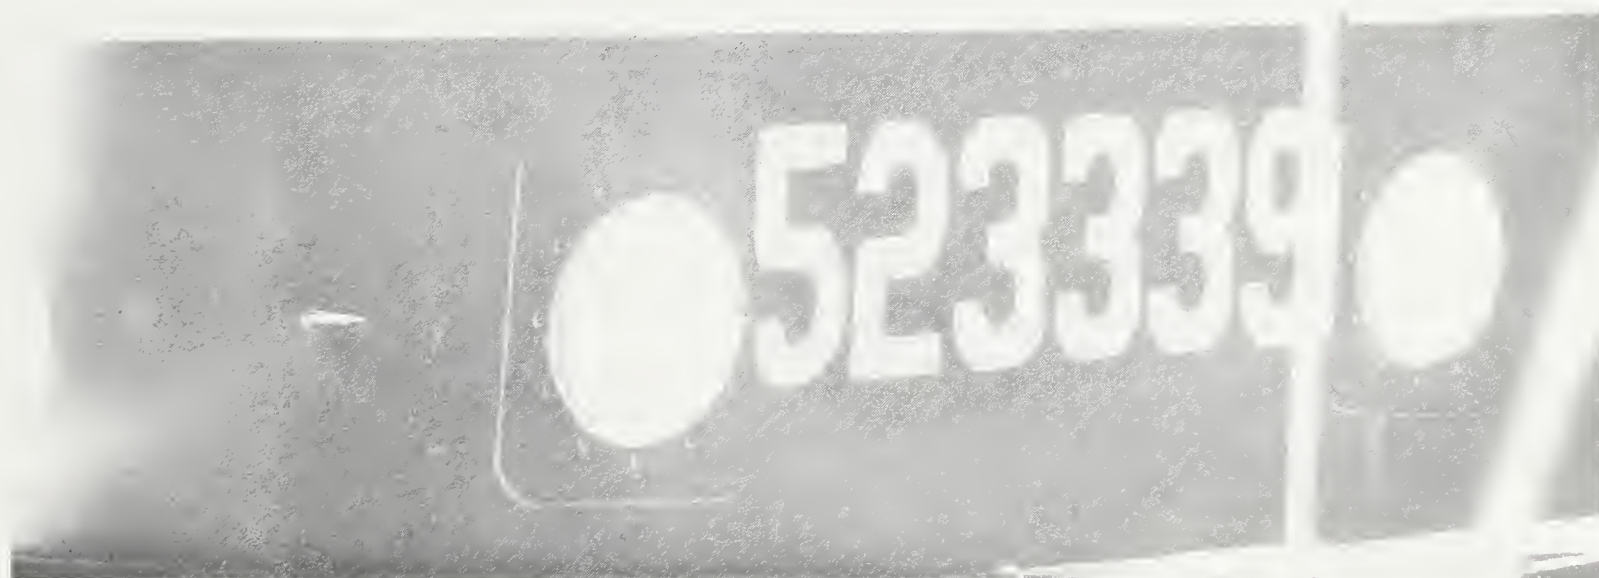

Confederate ships loved to create havoc among the American whaling fleet. Many merchants abandoned

their ships in port, put them into the merchant trade service or sold them. The US government bought 46 whalers known as the "stone fleet". They were sunk in ports and harbor entrances in South Carolina and Georgia to deny the ports to the Confederates.

About 90 ships were destroyed in all, but the effects were worse than that from the war. The fleet was reduced from 514 ships to 263 by the beginning of 1866. By 1893 San Francisco was the leading port in the country because of its use by other countries. In 1906 it was one of the only three ports left in the whaling trade; New Bedford had 24 vessels, San Francisco 14, and Provincetown 3.

After WWI America tried to bring back whaling by redoing some of the old ships. These ships could not compete with modern whaling catchers. On 25 August 1924 the "Wanderer" of New Bedford set sail on a voyage and anchored off Mishaum Point for the night. During the early hours of August 26 she was driven ashore and wrecked on the island. "Wanderer" was the last of the American square-riggers. She was also the last whaling ship to leave the port of New Bedford.

America reentered the whaling industry in the 1930's, operating shore stations along the Pacific Coast. They were all small operations that never grew into anything as large as its predecessor.

William Bulger - President University of Massachusetts

Dear Class of 1998:

Please accept my congratulations on your graduation from the University. You have reached a truly important milestone deserving of our respect and admiration.

Courage, commitment, creativity, and ability are the attributes that carried you, the class of 1998, to graduation, and they are the attributes we all trust you to use in continuing a life of education and citizenship.

The University has accomplished great things but continuously strives to make major contributions to the commonwealth, nation and world. You now have an opportunity to build on your personal success by using your knowledge and experience to benefit those around you.

Your future will be a testament to the sacrifices that your parents, professors, and friends made for you during your years at the University, sacrifices that allowed you to receive a valuable degree.

I am confident that you leave with limitless potential and a hunger for even greater knowledge, and I am happy the University was able to play a role in your life.

I wish you all the best on your endeavors

Sincerely,
William M. Bulger
President

*Peter Cressy - Chancellor
University of Massachusetts
Dartmouth*

Dear Class of 1998:

Congratulations to each of you for completing your degree. Graduation marks an important milestone in your life. The world in front of you is filled with both promise and challenge. Your education obtained here makes you ready to take advantage of both. Never in the history of humankind has knowledge been expanding at such a rapid rate. I encourage you to use that knowledge to make the world a better place in which to live. By doing well in whatever your chosen field and by participating as a good citizen, you will contribute to your community, to your country, and to the world. I urge you to remember that both diversity and civility are the cornerstones of our democracy.

Congratulations to each of you for achieving this major milestone in your life. You graduate this year ready to face a world of great promise and of great challenge. More than at any time in recent memory the world's economy is prospering. Medicine, science, and technology are advancing at a rapid rate and there is a new spirit of optimism. On the other hand, around the world violence, tragedy, and bigotry are everyday occurrences. You, therefore, are faced with the challenge of extending peace, prosperity, and civility to every corner of the world and to every level of society.

Although many individuals such as your parents, friends, faculty, and staff have supported you as you moved toward graduation, in the end you did it yourself. In the journey toward graduation you learned important skills and understanding: communication, teamwork, discipline, persistence, and humanity. Perhaps most importantly, however, you learned how to learn. The world is changing so rapidly that the capacity to learn is the most critical attribute you take with you from your time at UMass Dartmouth.

Your University is proud of you. Each of us who stays behind wishes you well and hopes you will continue to be a part of your alma mater.

Sincerely,

Peter H. Cressy
Chancellor

Dedication

Dr. Naseer H. Aruri

As students of this University, especially as students who have reached their senior year, we know that the quality of our learning experience has, in a very real way, been defined by the quality of the faculty who have taught us. We have been blessed, for the most part, with teachers whose knowledge, skills, and ability to inspire have raised our levels of understanding. Such are the qualities that characterize the person to whom, we the 1998 University of Massachusetts Dartmouth Yearbook staff and the officers of the Senior Class, proudly, though sadly, dedicate this book – Dr. Naseer H. Aruri. We say sadly, because Dr. Aruri's announced retirement this past spring left many students, past and present as well as colleagues sensing a certain melancholy over this faculty icon's departure.

On June 5, 1998 at the annual Graduation – Honors Recognition Dinner, the 1997–1998 University Student Senate presented their prestigious Distinguished Service to University Award to Dr. Aruri. We, the Editorial Board have chosen the eloquent words of the Award Citation to express our feelings in this dedication.

Dr. Naseer H. Aruri, our loss in the coming years will be cut to the shape of your gentle personality, to the size of your magnificent intellect, and to the depth of your profound wisdom.

Born in Jerusalem, Palestine, you are a Middle East specialist with an intense devotion to your homeland and a native's intimate understanding of the complex and volatile issues that affect this vital region. You have spent three years on the board of directors of Amnesty International, are a founding member of the Arab Organization for Human Rights, and hold a membership on the boards of many more of the world's most influential organizations. Globally recognized as an advisor on geopolitical affairs, you are called upon for your views by the national and international press and have appeared on many television programs. You have also written and edited numerous articles and books on the Middle East and on human rights. This extensive background has made you the perfect transmitter and translator of Arab thought and perspective to the generations of students who have filled your classroom and been fascinated not only by what you taught them, but by how you taught them. Chancellor Professor since 1996, you have graced the faculty of this institution for thirty-three years, serving for eight of those years as chair of the political science department. Charismatic and extraordinarily accessible, you have communicated to your students, along with a wealth of information and unique insights, a respect for them as valuable human beings and a genuine interest in their personal and academic evolution.

We are proud to have been your students and honored to have been your friends, and it is with great regret that we say farewell. Know that your influence will continue to ripple out in the way we understand the people of your homeland and perceive the workings of the world, and in our strivings to treat others with the same kindness, courtesy, and concern with which you have treated us. Wishing you Godspeed in your retirement, we the students of the University of Massachusetts Dartmouth pay you tribute.

Dr. Naseer H. Aruri

*Dr. Aruri with Mikhail Gorbachev, former
President of the Soviet Union.*

Senior Class Officers

Beth Murphy
President

Chad Cabral
Vice President

To the Class of 1998:

Our years here at UMASS Dartmouth have come to an end. The hard work and dedication over the past few years have left us with a degree in hand and a world unknown to conquer. However, the knowledge we have gained, both in and out of the classroom, will help to give us direction for the rest of our lives.

Over these years we have made the friends of a lifetime. With these friends we can look back and reminisce about UMD and the memories it has given us to cherish.

When thinking back on your years at UMASS Dartmouth, remember all the Ratts, the Blast Off, Bus trip to Newport, Second Semester Kick Off, 100 and 50 Days till Graduation, Spring Break, Senior Week, the Sunset Room, and the many gatherings in Cedar Dell.

Thank you for giving me and my fellow class officers Chad Cabral, Jennifer Reardon, and Lisa Coffey the opportunity to serve you this past year. Thank you for the support you have given us. I hope we have succeeded in making your senior year a memorable one.

I wish you all the best of luck and happiness in all your future endeavors. Congratulations, Class of 1998!

Sincerely,

Beth Murphy
Senior Class President

Memorial

Ayuko "Cookie" Ito
Ceramics Major

In Japan, May 5th is known as Children's Day. In a strange twist of fate my lovely daughter, Ayuko Ito, went on a trip to a place very far away on the day in 1997. She was driving to Boston when her inexperienced driving skills caused a serious accident. She left us instantly.

Ayuko was a healthy child, she never suffered from a serious illness. She grew into a lady with a beautiful smile and a shining character. Her dream was to become a ceramics artist. As her mother, I still feel the shock when she went away. I sometimes feel as though my life ended on the day as well.

The United States is a land where people from around the world meet. Ayuko visited the United States when she was in Junior High School. She was impressed by the nature of North America. She was shocked to see homeless people living in the streets of New York City.

In Japan students have to choose their majors at very early ages, and Ayuko had a hard time deciding her future. The more open university systems in America inspired her decision to study there, and we supported her with all our hearts. I told her to be careful of drugs, guns, and disease...but the cause of her death was unpredictable.

Ayuko gave us so much, her letters brought great happiness. She would write, "How are you mother, father?" and ask about her two brothers Ryuta and Ryuma, her bird Pippi, and her poodle Aster. These words alone made us smile. Her grades were excellent, she always made the Dean's List and the Chancellor's List. She made us very proud. Now, we keep her achievements beside her picture.

Ayuko gave all of her friends in Japan a new reason to live; she gave us all an indescribable power. I want to thank everyone that brought her happiness. I am happy to have her good friends Julian, Anthony, and Trai... we appreciate the support we found in all her American friends.

She left Japan to find herself, and she is still on her journey. She used to say, "Cheerup!", and to always look forward.

April 10, 1998

Mother, Kazuko Ito

From Julian to Ayuko,

Each day in her life was full of joy and excitement. I never saw a day without a smile on her face. All of a sudden, on May 5th, she left us without a note. Losing someone very special to you is such a tremendous pain. She was brilliant. She was so talented, as a ceramics and flower artist. She was only 21 years old.

The moment I saw Ayuko I knew we were going to be good friends. We shared a lot of time together, supported each other as artists, talked about our homes that we missed, understood each other's thoughts and enjoyed life in a foreign country. I didn't know she would leave us this soon, so regret that I did not fully utilize the time to know her better. There were so many things for me to find out after her death; how good her school grades were, the fact that she wanted to be a flower artist before changing her mind to be a ceramics artist, how kind she was to her parents and handicapped people, and soon. I didn't want to find out these things in this way.

Compared to the loss felt by her family, mine should be very little. It is enough for me and other close friends of hers to suffer the pain for a long time. I think about her every day, and talk to her in my heart. I miss her so much. Her permanent absence squeezes my heart brutally. Her death made me reconsider the true meaning of life. She made me reappraise the beauty of nature and of human beings. "One life is not enough," that's what she used to tell me. She couldn't even finish one entire life; hers was just too short.

One single mistake, like hers, can not replay your life from the beginning. I want to dedicate my life to what she accomplished. I promised her I would live strong and enjoy the life I have. I hope everybody learns something from her mistake and takes good care of themselves, and their loved ones.

March 98, Julian Kan

The Whaleman

A whaleman strong am I,
I rove the briny deep –
And whether the sky
Be dark or bright
A steady watch I keep.

For the whale's a clever prey,
And moves from sea to sea
And many's the day
We raise no "blows"
To "weather" or to "lee."

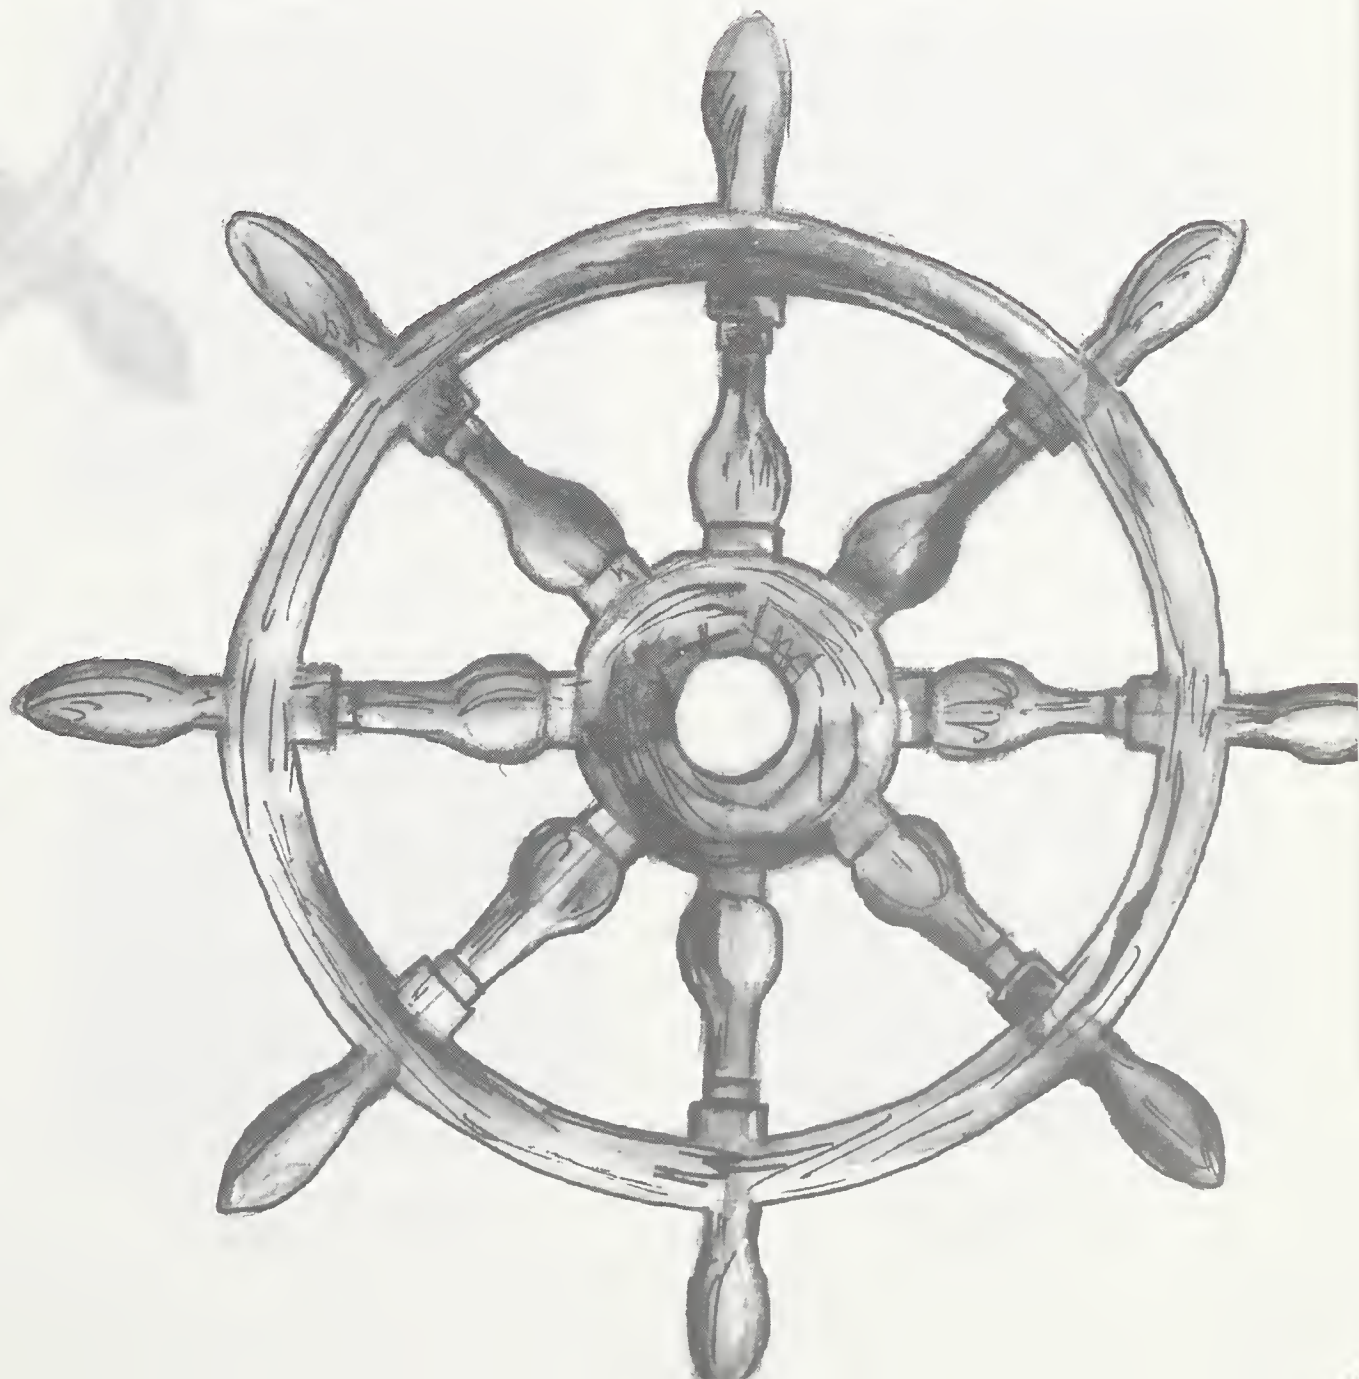

I love the whaler's life
And the oceans which I sail –
It's a medley of strife
And glorious sights
That make a land life pale.

But when my "cruise" is o'er,
And the "Master" figures my "lay,"
I'll ask no more
Than He thinks right,
And log – "So ends the day."

Enoch's Voyage
Life on a Whale Ship
1851-1854

Entrees from Enoch Carter Cloud's Diary

August 13
WEDNESDAY

This book will contain a true narrative of all that I see during the voyage. If I intended to prepare a work for the public, a more exact conformity to the laws of rhetoric grammar, punctuation, etc. would be observed, but as a familiar family companion, I trust it will serve to amuse each and every member of the social family circle at home. Many, I doubt not, will be grammatical blunders, perversions of the laws of rhetoric, etc. to be found in its pages, but one consideration I think deserves notice: this first attempt to keep a regular journal demands a due share of generous criticism; and every allowance from those qualified to detect and point our errors in composition. So, relying on this version of the matter, I will go on, and endeavor to write a palpable, amusing, and instructive "log."

August 14
THURSDAY

Well, here I am, in New Bedford! And why? To go on a Whaling Voyage around the world! I met a stranger today on one of the wharves, who accosted me in a friendly manner and inquired "If I was bound a Whaling." I replied in the affirmative. "Take my advice young man," said he, "and don't go." He then turned away and left me. I may possibly have cause to think of this when it is too late! Time will show!

August 16
SATURDAY

On board the ship! Well, let's have a peek in the little world in which I am to live, probably for years! The forecastle . . . Now, did not the particular nature of the case demand from me an answer, I would most humbly beg to be excused from publishing my opinion concerning the said Forecastle. Well, what is it, and what is it not? Is is not home!! It is a hole in the forward between deck of the ship, Hy. Kneeland; about 9 feet by 16 in which 21 men are to live for 30 or 36 months. A thick dark cloud of tobacco smoke pervades this "castle" and an occasional "growl" indicates another party's presence. Ah! a low red-haired freckled-faced, uneasy sort of man, answering to "Tom," whaling from "away down East!" More Anon.

Groups of fellow-sailors are standing around deck, all engaged in animated conversation. If I were allowed to make my own thoughts & feelings a standard for others I could very easily tell the main topic of conversation. That one mighty thought, which despite excitement, adventure, novelty, and incident, will be uppermost HOME!!!

(8AM) Pilot on board. Each quick turn of the windlass; each hearty "yeo ho," loosens the anchor from its firm bed, and now, (12N) with both anchors at the "Cat-heads" & swelling sails in, are fast leaving our native land! Will we ever see it again? Why does each countenance of the loved home circle appear as in reality before me? Why this bitter felling of regret: why this longing for one hour with the loved ones at home? Alas! Time has fled! It has been a voluntary launch and I must patiently abide the bitter, bitter gale!

Faculty

8 Bells (4 PM) Crew called aft and listened to a brief address from Capt. Vinall—mainly consisting of a desire on his part that we perform our duty faithfully, and properly respect the Officers. He assured us that we should be treated well, care taken for our comfort, and that we would have enough to eat. (The latter, a very mighty consideration.) Time will show, how far these promises are complied with.

The Crew are divided into two watches, the Starboard and Larboard. I am chosen in the Larboard.

August 22
FRIDAY

Gale abated. The sea is still very rough, however, but will soon calm. A great spirit of petty tyranny begins to manifest itself on the part of the Officers. They certainly do not embrace Leigh Hunts' celebrated maxims.

Power itself, hath not
Half the might of gentleness!

but, I of all others, have a poor reason for complaining. Read the 139th Psalm, this morning with peculiar feeling of delight! The attributes of God are duly appreciated by the Psalmist. Dreamed of being home last & "eating a good breakfast," somewhat different from the fare here, which consists of something they see fit to call "Coffee," sweetened with "long-tailed sugar," salt junk & hard-bread!

8 Bells. PM crew called aft, and the Capt. & m Officers proceeded to select their boat's crew. I am chosen in the Capt's (Starboard quarter) boat and stationed at the mid-ship oar. I was then ordered to the wheel to learn the compass.

August 26
TUESDAY

Employed this morning in "cutting in" the blubber I thought that I had a pretty good idea of the size and appearance of a Whale. But when I first saw this one (which is the largest size), I was struck dumb with astonishment! I could but look, and admire the power and glory of God! Myriads of ravenous shark surround the ship, each one seemingly very anxious to get a cut at the "King of the Deep." 4 Bells. (2 PM) Blubber all cut in. Preparing for "trying-out."

August 27
WEDNESDAY

Up and at it, fittle & fat to the eyes! If this is not enough to warrant the "blues", I don't know what is! But Hark to the Skipper! "Man that fish-tackle over the blubber-room!" "Aye, aye Sir!" — but what next — thought we all! "Hoist out that blubber and cast it over-board, it's worthless!" So much for inexperienced Officers, sulky on account of this disappointment.

August 29
FRIDAY

Quite sick today. Unable to stand my watch. Symptoms of bilious fever. Got some pills from the Medicine chest & came below. Oh how I miss the kind attention of a Dear Mother! Truly, this is not Home!!

*"This bone once in a sperm whale's jaw did rest.
Now 'tis intended for a woman's breast.
This my love I do intend
For you to wear and not to lend."*

*"Accept, dear Girl, this busk from me;
Carved by my humble hand
I took it from a sperm whale's jaw
One thousand miles from land.
In many a gale had been the Whale
In which this bone did rest.
His time is past, his bone at last,
Must now support thy breast!"*

- Scrimshaw and Sudden Death
Brian O'Brien

The folk art of scrimshaw was developed as a pastime by the crews of early whaling vessels. Crewmen's time at sea was often filled with many uneventful hours. Making use of materials found readily at hand, the crewmen began to etch designs, usually relevant to their lives at sea, into ivory. Whale teeth and bones as well as walrus tusks were most available to the scrimshanders. The etched designs were rubbed with lampblack to highlight the design.

As an art form, scrimshaw exists in many forms. The most common form of scrimshaw was that created on a polished ivory tooth or tusk. Carved and decorated ivory was also turned into common tools and accessories such as walking cane handles and kitchen implements. To satisfy the needs of a growing consumer market, whalebone (baleen) was manufactured into component parts of consumer products such as the busses in a woman's corset. Scrimshaw also found its way into wooden furniture and art objects as an attractive inlay material.

Scrimshaw is an art form that truly reflects and records the cultural, economic and social history of this unique region of our country, southeastern New England.

The yearbook of the University of Massachusetts Dartmouth is and has been accordingly named the Scrimshaw. This name is indeed appropriate for our publication as we too, like the scrimshanders of the past, endeavor to record and share the history and accomplishments of our educational community - the University of Massachusetts Dartmouth.

Clubs & Organizations

Board of Governors

The Board of Governors works with the Director of the Campus Center on all matters concerning the Campus Center. Comprised of fifteen students and two administrators, the Board of Governors is the policy maker of the Campus Center. Each student member represents one of the following UMass Dartmouth constituencies: four residents, five Commuters one Graduate Student, one Alumnus, one Continuing Studies, President of Student Senate, President of Residence Halls Congress. Election to the BOG is for a two year term and is held in conjunction with Student Senate elections in the spring.

Senior Class Officers

Senior Class President - Beth Murphy

Vice President - Chad Cabral

Secertary - Jennifer Reardon

Treasurer - Lisa Coffey

Student Senate

Student Government functions on the UMass Dartmouth campus through the Student Senate which represents all students by popular election. The Student Senate must approve the formation of new organizations. This body is the voice of the students in school affairs, as members are appointed by the Vice-President of the Senate to serve on various faculty and administrative committees. The Senate consists of 32 senators: three from each of the four classes, one from Continuing Studies, one from any graduate school and eighteen from five colleges based on proportions.

Student Activities Board

The Student Activities Board is a volunteer, student run organization dedicated to furthering the involvement of students in campus activities. Its purpose is to provide social, recreational, education, and cultural programs for the community. The Student Activities Board consists of several committees: Afternoon Programs, Security, Novelty and Variety, Major Events, Recreation, Social Functions and Sunset Room.

United Latino Society

The purpose of the United Latino Society shall be to provide cultural, social and academic activities for the students of Latin descent. The United Latino Society is a central meeting and informational gathering place for students with common goals in order to form a cohesive student group. This society will encourage the recruitment, retention, promotion and participation for Latino students in the area of education. The organization strives to create strong programs of networking and professional developments for the Latino members.

United Brothers & Sisters

The United Brothers and Sisters defines itself as an organization to help ensure the successful matriculation and representation of African-American, Latino, Native American, Asian/Pacific Islander, and Cape Verdean students through this institution. The United Brothers and Sisters sponsor lectures, banquets, dances and other exciting activities involving the members, the university and the surrounding communities. Through the organization, members are also informed of activities at other campuses in New England concerning them.

Portuguese Language Club

The Portuguese Language Club at UMass Dartmouth is an organization created to stimulate interest in the language and cultures of Portuguese speaking countries for both the Portuguese community and the community at large. It is the goal of the club to provide both activities and a forum where members and non-members may come together to learn about these cultures.

Frederick Douglass Unity House

In the Fall of 1995 the Frederick Douglass Unity House opened as part of the University's effort to recognize the special needs of its diverse student body. The center seeks to establish a cultural environment focused on the unique social, cultural and academic concerns of students of color. It is also a space within which the entire student body can experience, participate in, and initiate activities that foster an enriched and balanced cultural campus life. On a day-to-day basis students use the space for study, access to computer facilities, hold organizational meetings, plan activities and events, meet with members of faculty for meetings. A growing library boasts an impressive collection of books which concentrate on a broad range of topics related to people of color.

Senior Photography Exhibition Club

The Photography Exhibition Club was created to stimulate the interest and extend the understanding of Professional Photography to graduating seniors. The club shows its members the in's and out's of hanging a gallery show, organizing the art work, designing an invitation and dealing with the gallery director. The Photography Exhibition Club also encourages the entering of contests and private shows by its members.

Indian Students Association

Indian Students Association, one of the most active foreign student associations on campus, organizes cultural programs, lecture series and food festivals throughout the academic year. It consists of Indian students, professors and the Indian families in the vicinity. Its goal is to promote the well being of Indian students on campus and to popularize cultural diversity by interacting with all nationalities on campus. The programs organized are generally for all the students on campus.

Torch (School Newspaper)

The Torch is the university's student newspaper. Published weekly, it reports on activities and matters of particular interest to students. All editing, reporting, photography, and managing of business is done by students.

Campus Design

Campus Design is the studio responsible for the advertising of Student Activities Board events and programs sponsored by other student run organizations. Along with providing publicity to the university community, Campus Design enables its members to further their educational and career efforts by providing valuable work experience in an environment in which to produce professional quality work. Basically, the staff is responsible for designing, layout and production of advertising materials ranging from t-shirts to *Torch* ads.

Women's Resource Center

Founded in 1970, the UMass Dartmouth Women's Resource Center provides resources that help to create an educational atmosphere rich in visible role models and free of sexual bias and inequities, where women can grow to their full potential. The center provides cultural opportunities that further women's personal and professional development and promotes a broader understanding of the diverse experiences of all women.

Circle K

In association with the New Bedford Kiwanis, the Circle K Club works with young people. We tutor in local schools and fund raise for the Pediatric Trauma Center in Boston. We are the college level Key Club.

Outing Club

The Outing Club offers the UMass Dartmouth community all forms of outdoor activities ranging from backpacking and cross country skiing to canoeing and bicycling. Many trips are planned and usually occur during weekends and school vacations. Emphasis within the club is placed upon safety in experiencing new and different activities.

WSMU (Radio Station) 91.1 fm

WSMU-FM is the student operated radio station of the university. The station operates to provide the campus and surrounding communities with varieties of musical programming which are not widely available on other radio stations. The station also serves as a continuing source of information for students and the community concerning current events, campus & area news, and general announcements. Help is needed from the student body to staff & operate the station, WSMU offers training classes 3 times per year.

Masspirg

The Massachusetts Public Interest Research Group is a state-wide, student run organization that works with environment, consumer rights and democracy issues. Every two years, the student body votes to re-affirm MASSPIRG'S funding through an optional \$5 per student/per semester fee. MASSPIRG has proven itself to be one of the most effective advocate organizations for positive social change and citizen involvement in public issues.

Karate Club - Shoto Kan

The purpose of the club is to offer karate instruction and completion to the student. Membership is open to the UMass Dartmouth community. The club participates in at least one competition per semester and is a member of the NECKC.

Tae Kwon Do Club

Tae Kwon Do is a Korean martial art similar to all martial arts; the themes of physical technique applicable in self defense and mental discipline needed to become the best person one can be are the central focuses.

Sigma Tau Gamma

Sigma Tau Gamma is a non-discriminatory, academic and social Greek letter fraternity. Sigma Tau Gamma believes that all men are social creatures. In this belief it strives to create a fraternal brotherhood of lifelong friends, who, through their thoughts and acts, will endeavor to improve self, and country. The Dartmouth colony of Sigma Tau Gamma was founded in the Fall of 1995 to meet the needs of interested students on this campus.

Phi Sigma Sigma

Phi Sigma Sigma is a non-discriminatory, nonsectarian Greek letter society aimed at helping its members reach their fullest potential, academically and socially. Founded in 1913 at Hunter College in New York, Phi Sigma Sigma now exists on over 150 campuses nationwide and internationally. The Theta Sigma chapter at UMD began as a colony in April 1996 and was installed on Nov. 26, 1996. Our motto is "Aim High" and that is what exactly we plan to do.

Scrimshaw Yearbook

The university yearbook highlights all the interesting events which occur on campus during the school year. Although it naturally devotes most of its space to the graduating seniors, students from all classes work on the production of the book.

Harpooning

The thrill of the hunt. It all started with three little words "There she blows!" sounding out from the look out. The whale boats were then launched, small boats holding six or seven men; a few to row, one to steer and one to harpoon the wail.

They row the whale boats into position and the harpooner gets situated to throw his harpoon. Once the whale was hit, if the opportunity arose another harpoon would be thrown in case the first was dislodged. If the second was not used it would be thrown over board so the lines would not be fouled up.

"All stern" would be yelled at once and the oars men would reverse their rowing to move the boat away from the whale. This was done as quickly as possible as to avoid any damage from the whale's immediate reaction of being stabbed. It was also an extremely crucial point because many boats were destroyed or overturned in these early moments as the whale's usual reaction to being hit was violent convulsions.

Following the harpooning the whale would either "ran" on the water or "sound" under it. If it ran the men would pull themselves closer to their victim. It is sounded the line would be pulled until it ran out, then another line would be "bent-on". If

the line was pulled to the end before another line could be bent-on, the line would be cut to prevent the boat from being damaged.

Once they were cut close enough to the whale the "boat-header" moved to the front and used the lance. The lance was used to make the final kill. The boat-header struck the whale in its vital parts until he felt the whale was dead.

The oars men would then move the boat away why the whale "went into its flurry"—the death struggle. The whale thrashes his flukes, lists to one side, and swims in a circle in a last try to escape. Finally there is a convulsion, he spouts blood and floats, fins out. This is the sign the whale is dead. At this point the body is attached to the ship by ropes and a chain and the cutting begins.

Sports

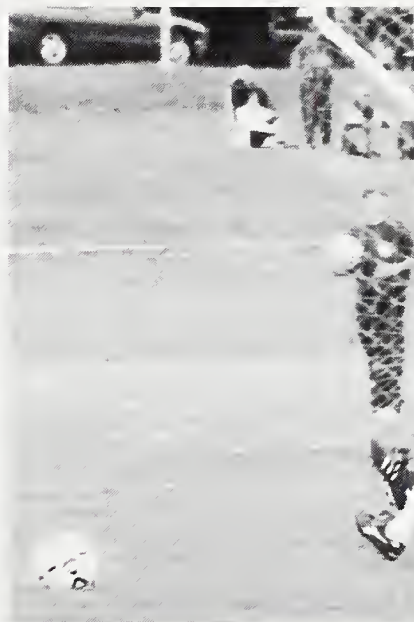

Women's Soccer

Second-year coach Alex Silva's Corsairs finished with a 4-13 overall record for the 1997 season and a 2-5 mark in the Little East Conference. UMass Dartmouth finished sixth in the eight-team conference, the same spot the pre-season coaches poll had predicted. Three of the Corsairs' four victories came at home against Roger Williams (2-0), Bridgewater State College (2-1) and Rhode Island College (4-0).

Men's Soccer

Nial O'Donnell got his rookie year as head coach off to a great start as UMass Dartmouth rewarded the first-year coach with three victories in its first five games. The Corsairs got O'Donnell his first victory in a 4-1 season-opening victory over Wentworth Institute and added a 3-2 win against Salve Regina and a 6-3 win against Worcester State College. Senior forward Erik Reis topped all UMass Dartmouth scorers with a four goals and four assists for 12 points. The Corsairs finished 4-11-2 overall and 0-6-1 in the Little East Conference.

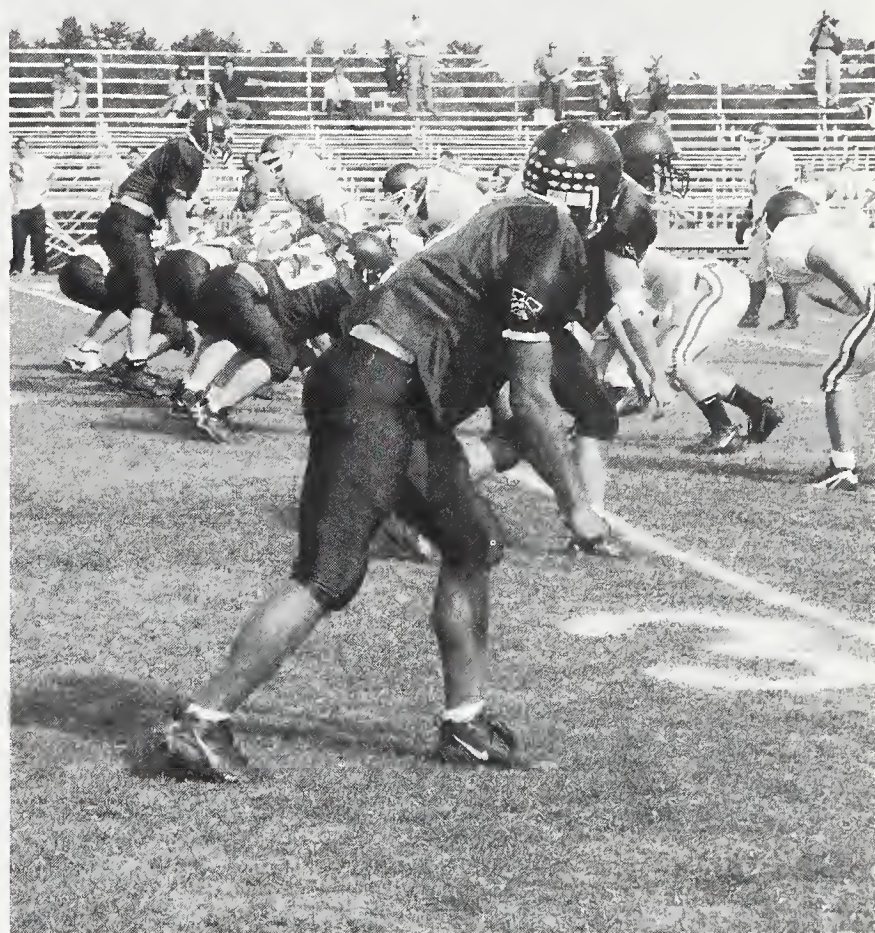

Cheerleading

Football

For a second straight year, the Corsairs posted an 8-2 record but fell one game short of winning the New England Football Conference (NEFC). A season-ending 44-28 loss to Bridgewater State closed out UMass Dartmouth title hopes but did not diminish an outstanding season for Coach Bill Kavanaugh's Corsairs. At season's end, UMass Dartmouth was ranked #7 in the final ECAC Division III Football Poll. Senior tri-captain and linebacker Rob was the NEFC Defensive Player of the Year and a New England Football Writers Division III selection. Senior tri-captain and wide receiver Ryan Bland combined with quarterback Jay Furtado as one of the top pass-catch combinations in the region.

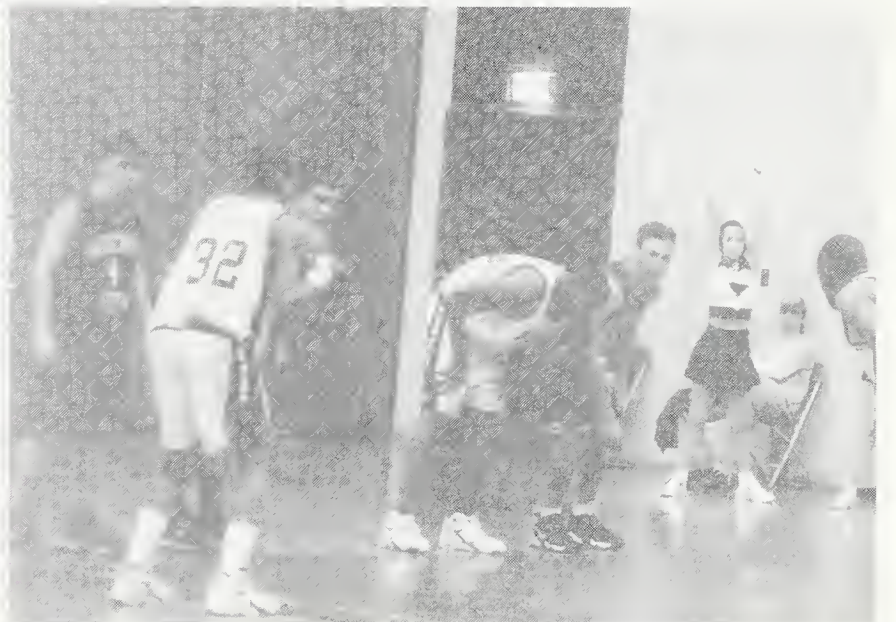

Women's Basketball

Heading into the final week of January, the Corsairs had a 5-7 record following a 79-53 victory over UMass Boston and a 66-61 win over Worcester Polytech. But losing streaks of six and five games stalled any hopes of a .500 mark as Coach Cathy Houtman's squad finished the season with a 6-18 overall record and 2-12 in the Little East Conference. Senior guard **Lakoyla London** rounded out UMass Dartmouth scorers in double-figures with an 11.3 points per game average plus 2.3 steals per game. The Corsairs will enter the 1998-99 season with a new head coach, following Coach Houtman's resignation which was announced in May.

Men's Basketball

Picked to finish fourth by the Little East Conference coaches in their pre-season poll, UMass Dartmouth surprised everyone but themselves by posting a 12-2 conference record for the Corsairs' ninth championship in the 12-year history of the LEC. UMass Dartmouth's season finally ended in the tournament's first round with an 86-78 loss in overtime at the O'Keefe Center, home of the #3 seed Salem State. Coach Brian Baptiste's Corsairs (20-8), seeded sixth in the tournament, gave the Vikings, champions of the MASCAC, all they could handle before falling short in the extra period.

Field Hockey

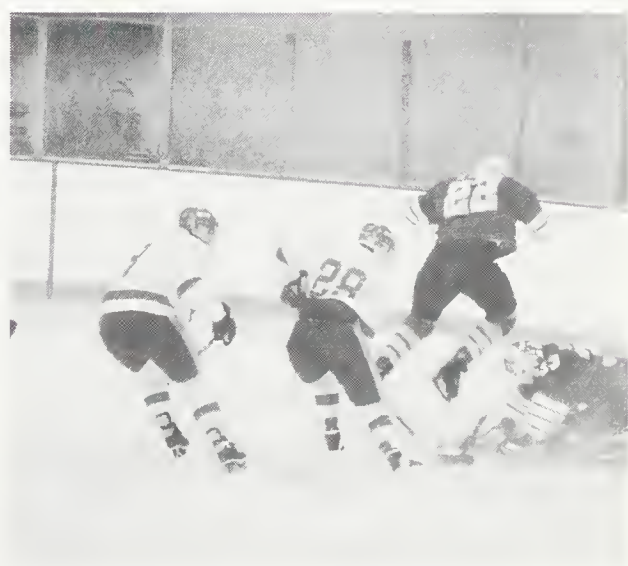

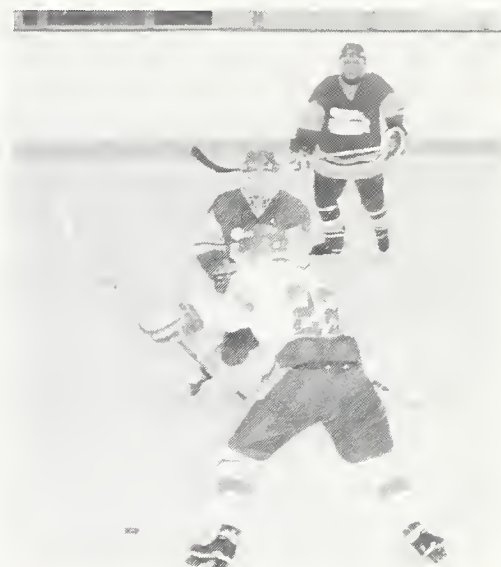

Coach Marilyn Ritz's field hockey team posted a 9-9 record during the 1997 season in part due to a 3-2 record in overtime games. Senior forward Kelly finished second in scoring with five goals and three assists for 13 points and senior-tri-captain Maureen was third with five goals and an assist for 11 points. Maloney capped her final season with the Corsairs as the team's first player selected to appear in the annual National Field Hockey Coaches Association (NFHCA) Division III North/South All Star game.

Hockey

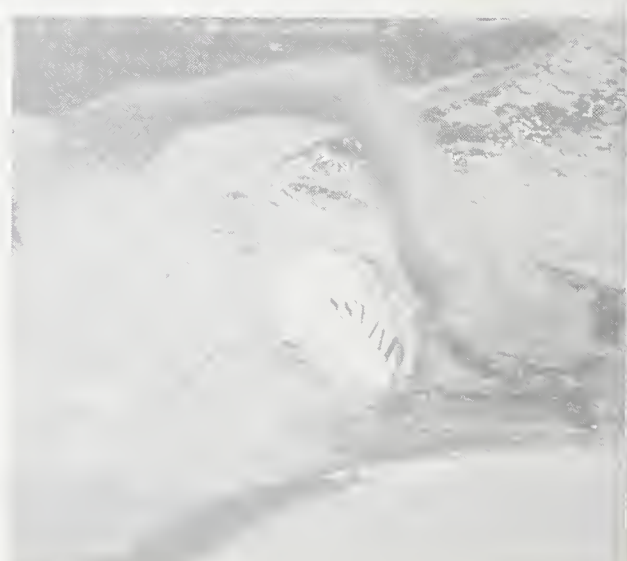

Three first-period goals in a six-minute span blew open a tight ECAC North/Central/South championship game and lifted the fourth-seeded Corsairs (22-5, 12-3 ECAC Central) to a 4-2 victory over second-seeded St. Michael's College (20-7) and UMass Dartmouth's second consecutive ECAC North/Central/South title. The title-clinching victory at St. Michael's was also UMass Dartmouth's fifth consecutive road victory in the ECAC North/Central/South tournament in the last two years. The Corsairs' 1997-98 ECAC North/Central/South championship will be the last under that division makeup. The ECAC Division III ice hockey structure has been reorganized for the 1998-99 season.

Swimming

For the second straight year, senior Mike Lane competed in the NCAA Division III Men's Swimming and Diving Championships. Last year, Lane had captured Division III All-America honors, but this season he lost out on his chance to repeat as an All-America selection by a margin of one second.

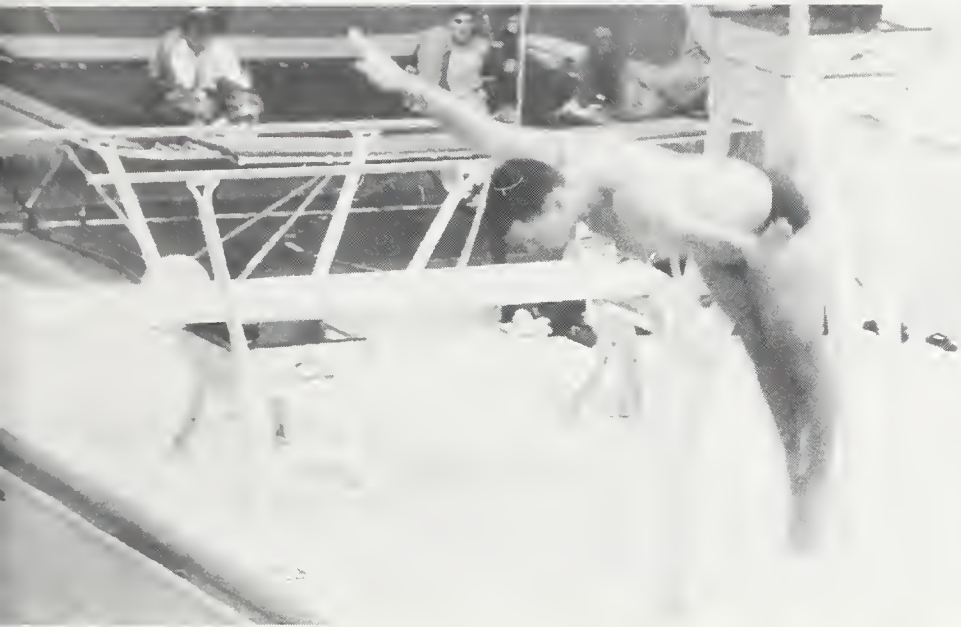

As a team, Coach Jerry Jennings' Corsairs posted a 4-6 record with victories over Trinity College, Worcester Polytech, Clark University and Wheaton College.

Diving

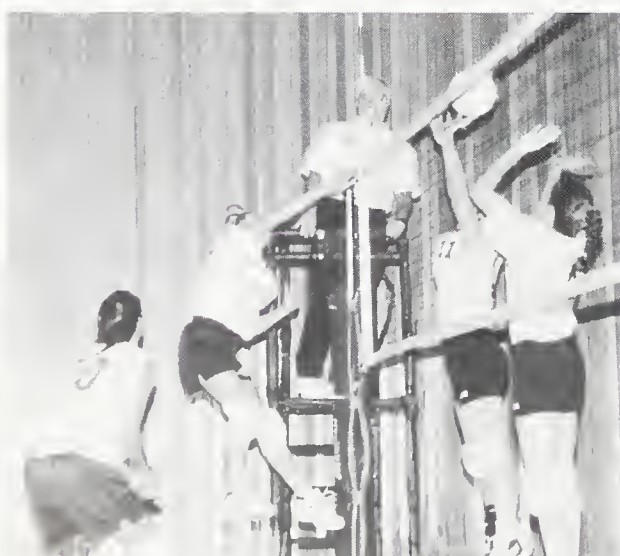

Despite a 1-10 overall record as a team, UMass Dartmouth had five athletes qualify for the New England Division III swimming and diving championships at Wesleyan University and one qualifier for nationals.

When senior Lynn Defonzo scored 252.55 points in the one meter diving competition against Babson College, she qualified for the NCAA Division III national championships. Although she did not participate in the nationals, her accomplishments capped a career of hard work and dedication to her sport.

Women's Volleyball

Coming off a season in which the Corsairs had not won a single volleyball match, first-year coach Rick Quintin made what seemed to be a bold prediction before the season. Quintin predicted his team could reach the .500 mark in his rookie season. The Corsairs made the end of their of season exciting by winning three straight matches to reach the .500 mark. Victories over Roger Williams University, Keene State and Framingham State set the stage for the final dual match of the season and a chance to reach the .500 mark. Losses to Eastern Nazarene and Assumption left Quintin's Corsairs two games short at 14-16 overall.

Cross Country

The injury bug which depleted the Corsairs' cross country roster never affected sophomore Gary Mello. Coach Jon Hird's UMass Dartmouth squad did not compete as a team at most events during the Fall season, but that never stopped Mello from a series of impressive finishes, capped by an appearance in the NCAA Division III National Cross Country championships. Although the Corsairs' women's cross country could not defend their Little East Conference championship in 1997, there were still several individual highlights during the season. Senior co-captain Laura Caselden 32nd overall (21st LEC). The Corsairs finished third in the LEC team competition.

Equestrian Team

Coach Susan Yacubian's UMass Dartmouth equestrian team hosted its second annual Intercollegiate Horse in October and its first as the newest varsity team on campus. Five riders earned first place honors in their respective events with 12 riders overall placing in their events. Sarah Roberts took first place in Intermediate Fences and fifth in Intermediate Flat while Cara David took first in Novice Fences and second in Novice Flats. Mary-Ellen Blombach qualified for Regionals with a first place finish in Intermediate Flat and a fourth in Intermediate Fences. Andrea Dodge took first in Intermediate Fences and third in Intermediate Flat and Melissa Sherlin was first in Beginner Walk-Trot-Canter.

Women's Lacrosse

Coach Gerry Jennings' first-year Corsairs finished their season with a 23-6 loss to Eastern Connecticut State University in the quarter finals of the New England Women's Lacrosse Association playoffs. UMass Dartmouth (5-7 overall) finished fourth in the Southern Division of the NEWLA with a 3-5 record. Several Corsairs distinguished themselves during the season, including a team of high-scorers, senior Lisa Haynes, and senior tri-captain Emily Rowe. Haynes was the Corsairs' leading scorer with a team-high 31 goals plus 7 assists for 38 points. Rowe finished second in goals and goal scoring with 18 goals and 5 assists for 23 points.

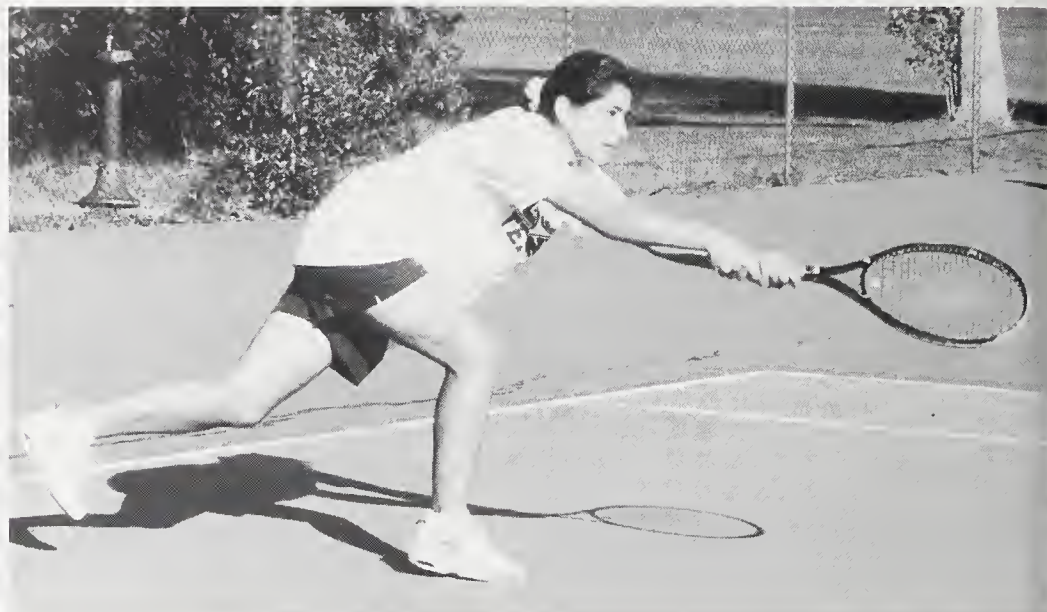

Men's Lacrosse

A 15-8 Pilgrim League loss to Plymouth State College in the final game of the regular season knocked UMass Dartmouth out of the playoff picture and brought to an end the Corsairs' first varsity lacrosse season. Despite not making the Pilgrim League playoffs, Coach Jeff Feroce's Corsairs had an outstanding season, posting a 10-3 record with three players earning Pilgrim League Northwest Division First Team honors. Prior to the loss to Plymouth State in their final game, the Corsairs had put together a solid first season. UMass Dartmouth posted its first varsity win with a 21-8 victory over New York Maritime. UMass Dartmouth averaged 14.4 goals per game while allowing 8.9 per game

Women's Tennis

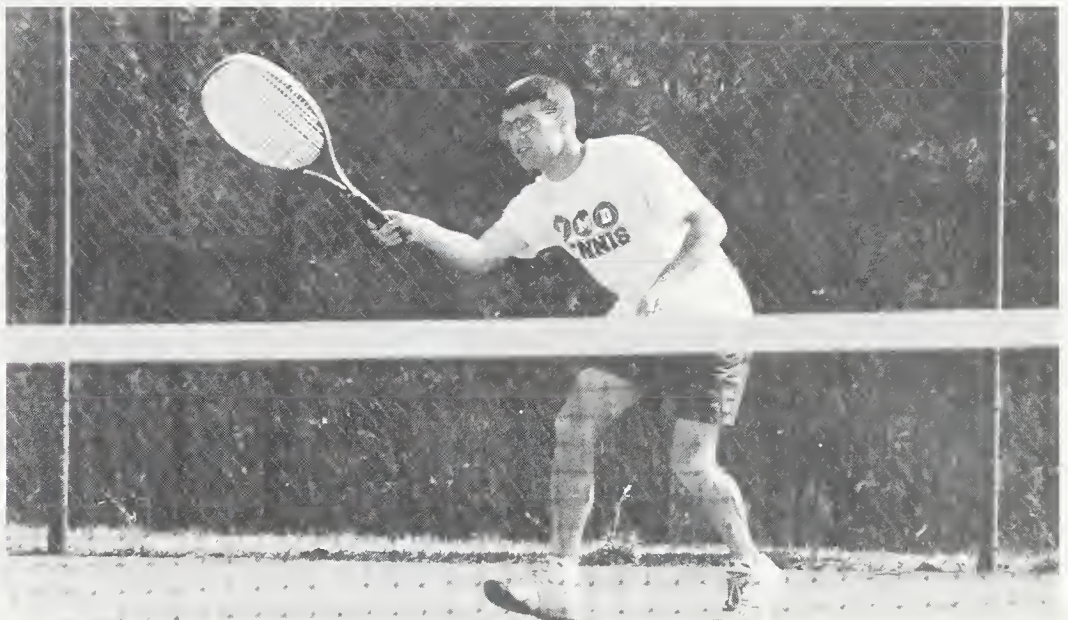

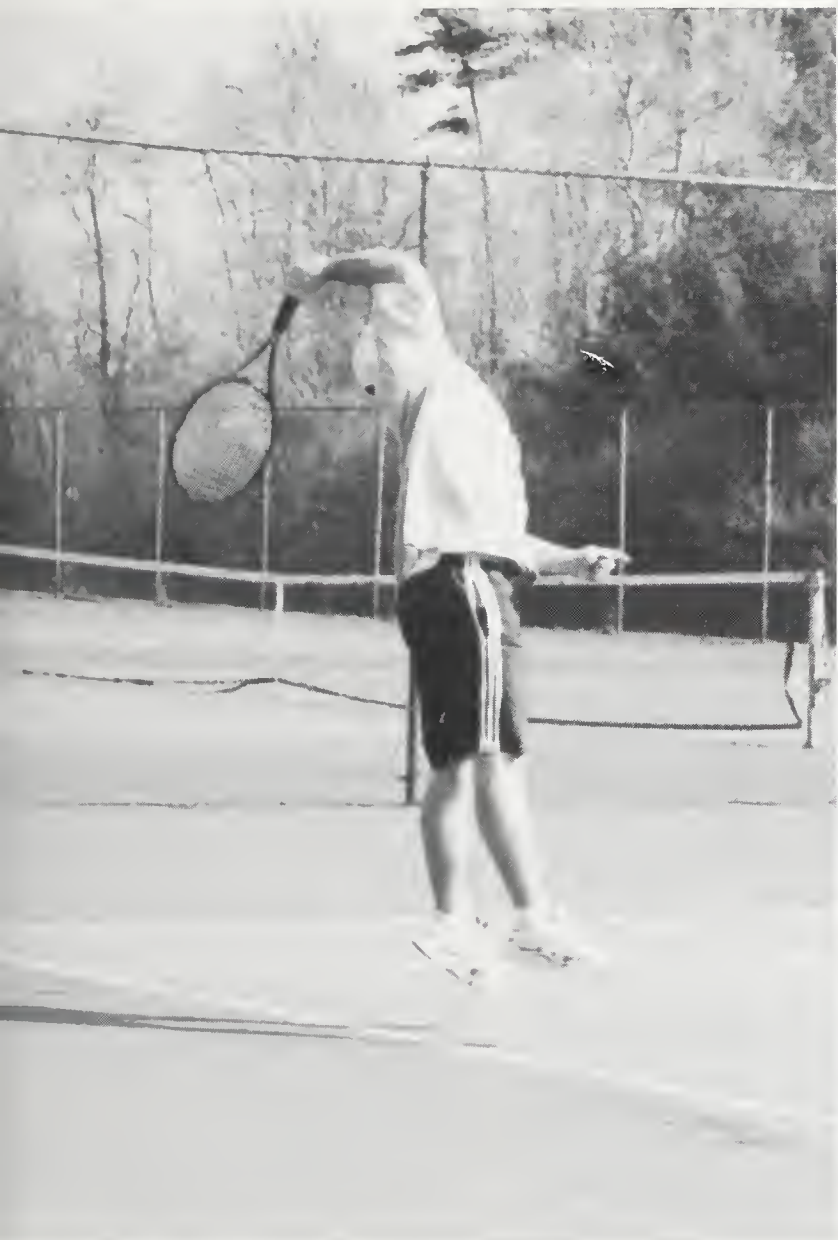

UMass Dartmouth's women's tennis team successfully defended its Little East Conference tournament championship for a second straight season, posting an 11-2 record for the 1997 season. Senior co-captain Olivia Cunha was UMass Dartmouth's second repeat winner at the LEC championship tournament. Exchange student Stephanie Hauser captured her first LEC championship when she cruised to a 6-1, 6-2 victory for the #4 singles crown. The Corsairs' second doubles crown belonged to the team of Cunha and senior co-captain Ashley. UMass Dartmouth compiled a 56-15 record in singles and a 21-12 mark in doubles competition.

Men's Tennis

UMass Dartmouth put together a perfect 11-0 season, the first undefeated Corsair men's tennis team since Coach Gerry Aillery's 1972 team went 8-0. The 1998 season brought the Corsairs not only a perfect record, but also extended their streak of consecutive Little East Conference men's tennis championships to three straight. UMass Dartmouth clinched the LEC championships held at Plymouth State College to successfully defended their LEC title for a second time. The Corsairs won all six singles matches and two of the three doubles matches for a total of 26 points, finishing ahead of second-place Southern Maine.

Softball

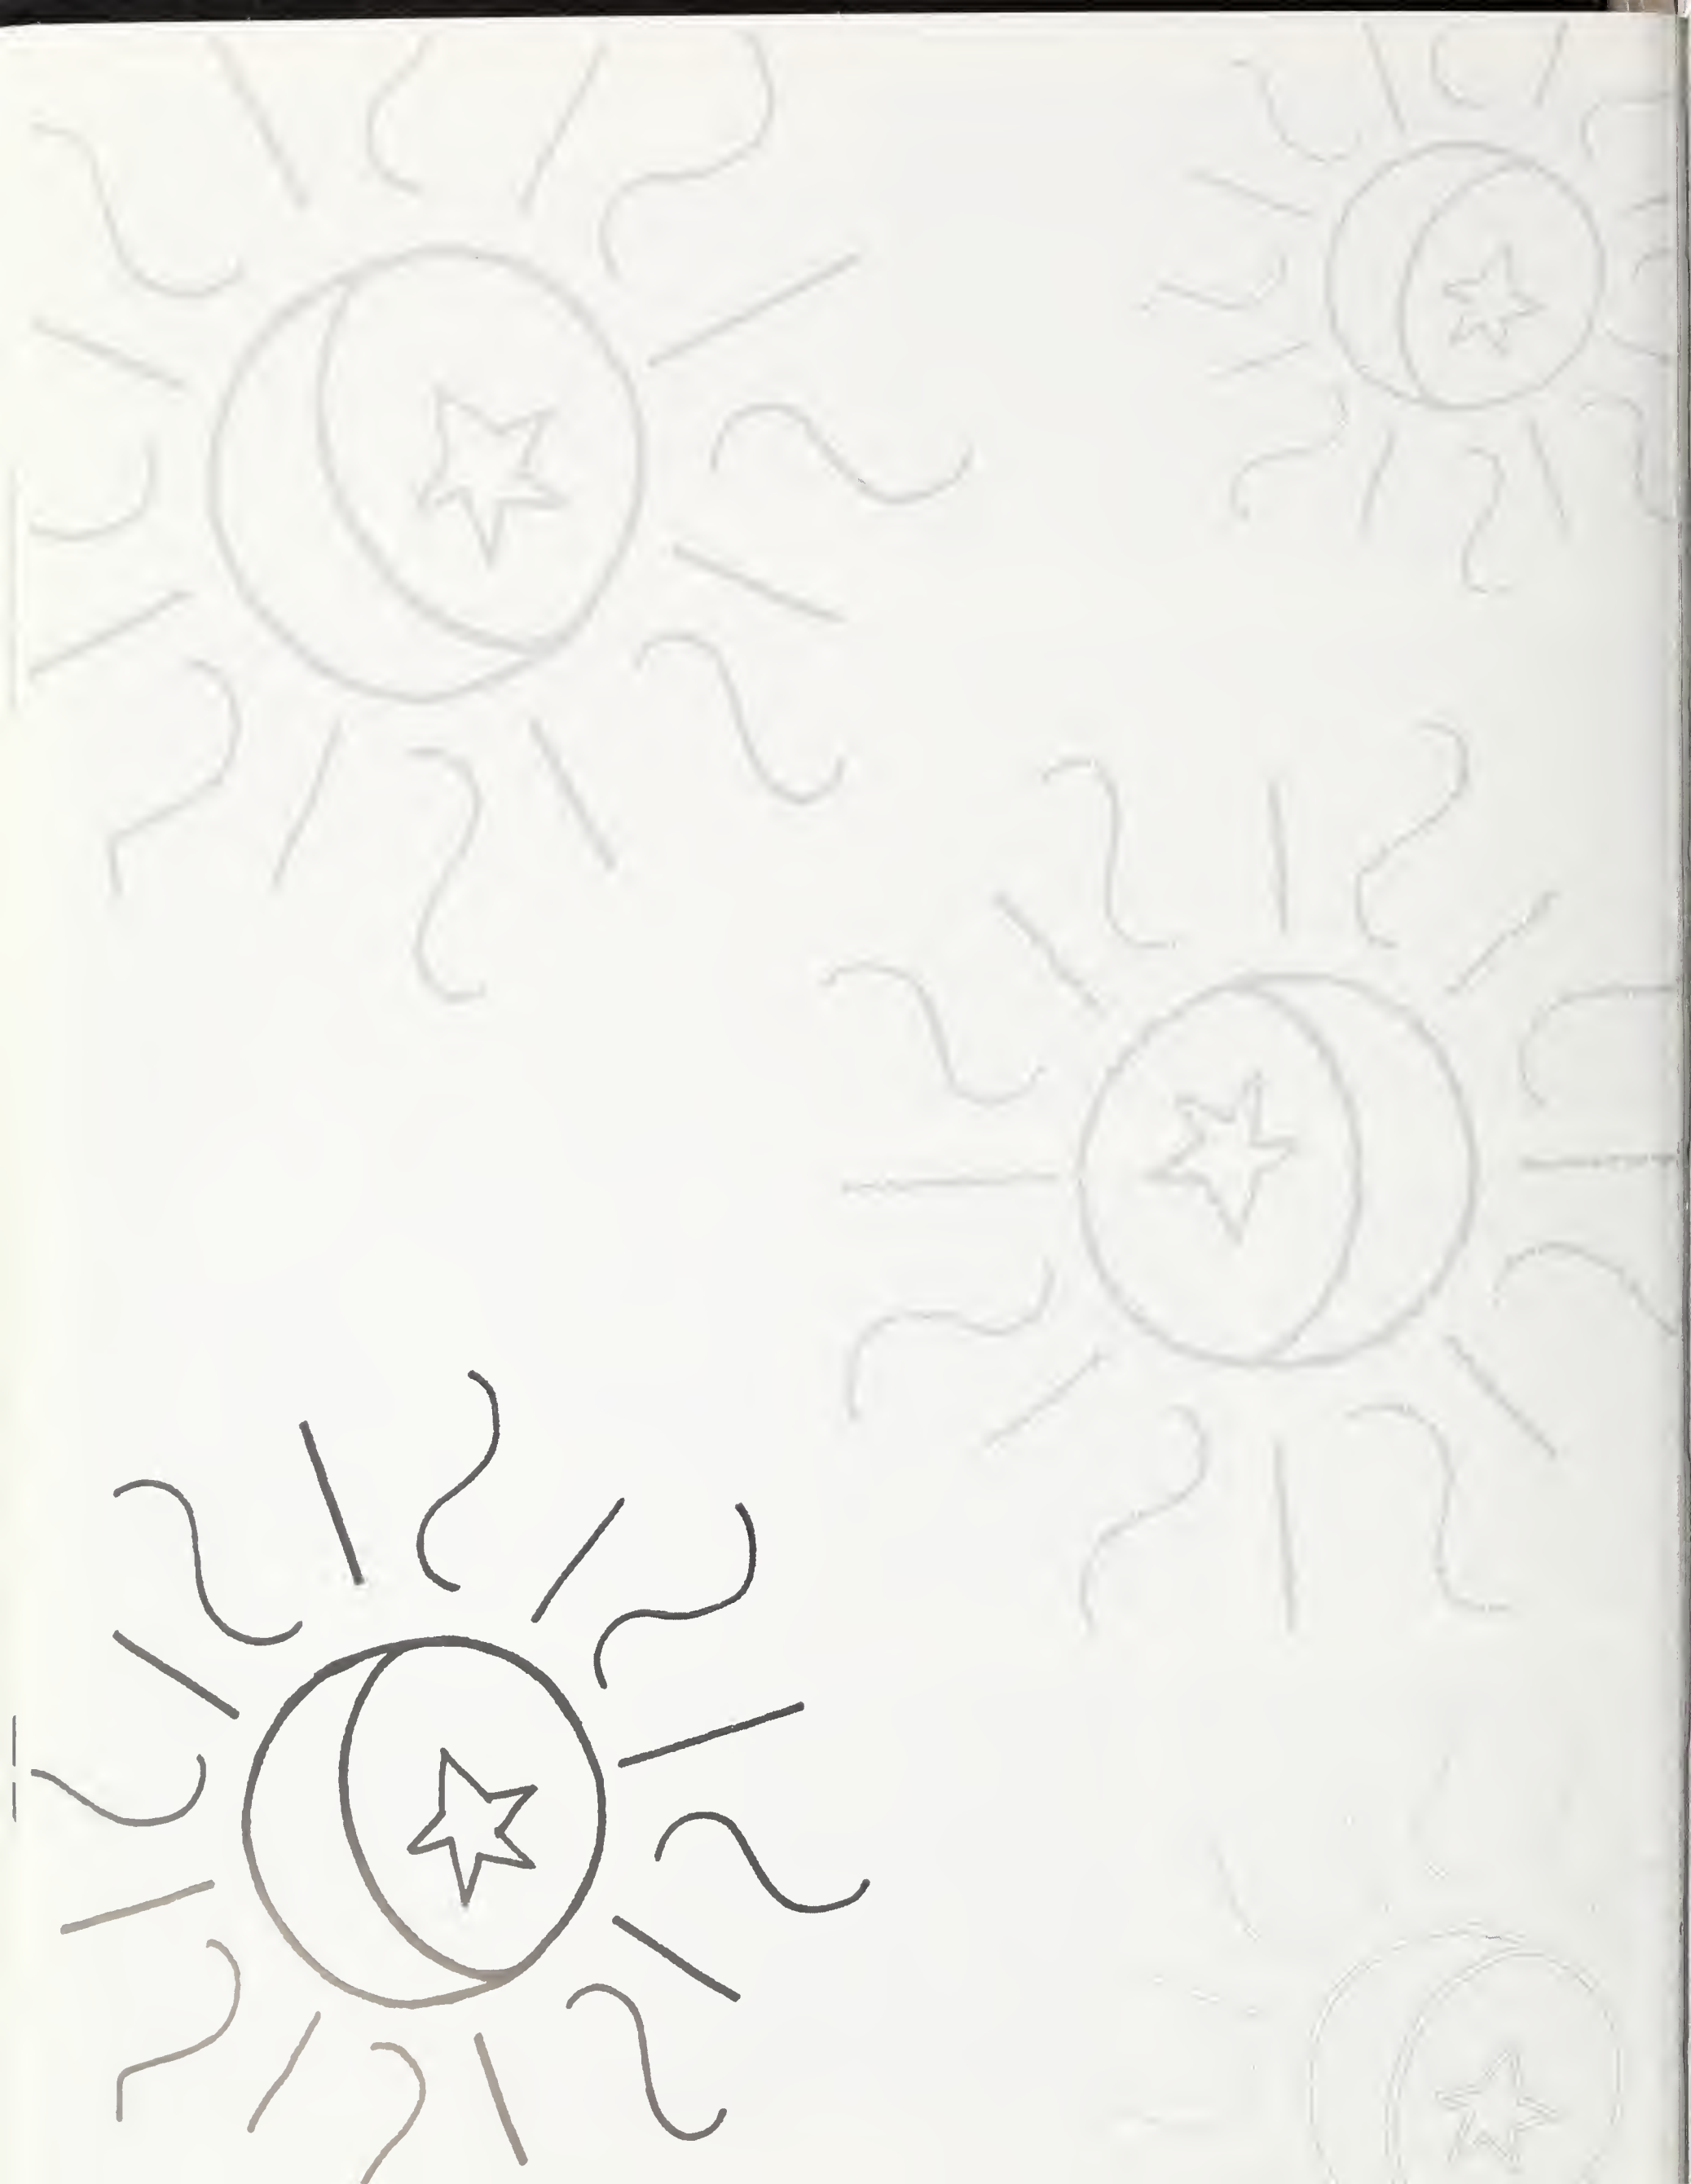

Coach Marilyn Ritz headed into the 1998 season with a young and inexperienced team but when the season finally ended, the Corsairs owned one of the biggest surprise victories of the season. UMass Dartmouth finished with a 6-28 overall record and a 3-11 mark in the regular season of the Little East Conference. Seeded seventh for the LEC post-season tournament, the Corsairs faced a trip to second-seeded Western Connecticut in the quarterfinal round. Instead of an early exit, the Corsairs pulled the upset of the tournament, scoring a 7-1 victory to eliminate Western Connecticut from the eight-team tournament. The victory lifted the Corsairs into the LEC double-elimination championships.

Baseball

For Coach Bruce Wheeler's Corsairs the 31 victories against 12 losses were the most in a season since UMass Dartmouth participated in the NCAA Regionals back in 1992 with a 32-11 record. With an offensive attack among the top in Division III nationally, the Corsairs put together one of the most productive seasons in UMass Dartmouth baseball history. The Corsairs team batting average of .358, the highest in the 27 years since

World Events

WNBA

The **WNBA** — Women's National Basketball Association— completed its inaugural season with the Houston Comets defeating the New York Liberty for the championship. And as the season came to a close, the WNBA announced the eight-team league would grow to 10 teams in 1998. If it all works out, the Comets will jump to the Western Conference with Los Angeles, Phoenix, Sacramento and Utah. The new teams, Detroit and Washington, DC, will join the East with Charlotte, Cleveland and New York.

Super Bowl XXXII

In one of the most competitive games in Super Bowl history, John Elway and Terrell Davis led the Denver Broncos to a 31-24 upset of the Green Bay Packers in **Super Bowl XXXII**. The Broncos' first National Football League championship ended the American conference's 13-year losing streak in the Super Bowl.

1997 World Series

The Florida Marlins became major league baseball's world champions in 1997, beating the Cleveland Indians in the **World Series**. Just five years old, the Marlins tied the Indians in the ninth inning of the seventh game and went on to win it all in the eleventh inning with a score of 3-2. Indians last won the series in 1948.

Sonny Bono

Sonny Bono was born on Feb. 16, 1935 and died on Jan. 5, 1998. He was 62. He survived by his wife, Mary, and his children Chasity, Christy, Chesare and Chianna. He first achieved fame as half of the pop music duo "Sonny & Cher" in the mid 1960's. Their first hit was "Baby Please Don't Go" in 1964. Later hits included "I Got You Babe" and "The Beat Goes On". The "Sonny & Cher Show" first aired in 1971 and was a hit until it ended in 1974. He entered politics in 1988 when he was elected mayor of Palm Springs, CA. He was elected to the 104th Congress as a Republican in 1994. He was re-elected in 1996. His wife now holds the congressional seat that he once held.

President Bill Clinton

President **Bill Clinton** was the first Democratic president in 60 years to be elected to a second term. A centrist New Democrat, he transformed his once beleaguered party. Under his presidency, the United States enjoyed the lowest rate of inflation since the early 1960s, and he was the first president in 17 years to submit a balanced budget to Congress. His vice president, Al Gore, was considered a very powerful vice president and was the president's closet advisor. The 49-year-old Gore was considered a favorite for the Democratic presidential nomination in year 2000. However, a year after their re-election, both men were under close scrutiny for campaign finance violations.

Pathfinder

The roving vehicle **Sojourner**, the first mobile explorer to land on another planet, landed on Mars in 1997 and gathered soil and rocks. Overcoming communications trouble and other set backs, the Sojourner left the Mars Pathfinder landing craft. The robotics rover's six metal wheels rolled slowly down a ramp and came to a stop on the surface. The Sojourner, which was about the size of a microwave oven, began crawling around the surface of Mars, transmitting a flood of information to scientists back on Earth.

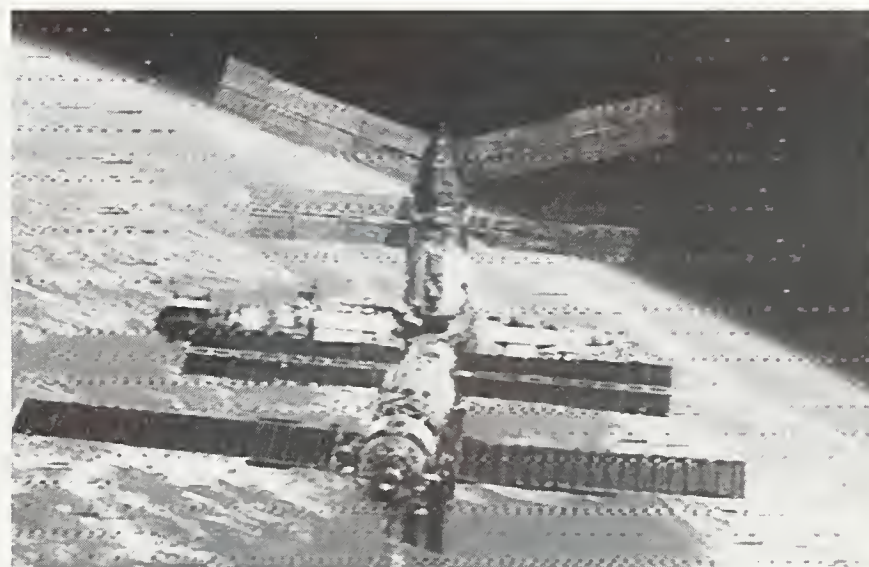

Yasser Arafat

Yasser Arafat was chairman of the Palestine Liberation Organization and president of the Palestinian National Authority. He was one of the keys leaders in trying to maintain peace in the Middle East. His 1993 handshake of peace with Yitzhak Rabin promised mutual recognition between the Palestinians and the state of Israel. Under the agreement, Arafat assumed leadership of Arabs within Israel's occupied territories. The 68-year-old leader played a very important role in keeping peace in the Middle East.

Mir Space Station

The first component of **Mir** space station was launched in 1986. And except for two brief gaps, the space station has been manned continuously ever since. It has made more than 60,000 trips around the Earth. In 1994 the U.S. and Russia agreed to conduct joint missions aboard the station. A docking module was attached to Mir, allowing American space shuttles to link up with the Russian station. The main Mir module — which provides living quarters for up to six people — has been orbiting for nearly 12 years, which is seven years longer than planned. These joint U.S. - Russian missions are the first phase of a program to build an International Space Station. This station is scheduled to be in orbit by the year 2002.

Princess Diana

Britain and the world bid farewell to **Diana, Princess of Wales**, on a sparkling September morning with a grand tribute rich in pageantry. Since her death in a car in Paris a week before, the country had witnessed an astonishing outpouring of grief that forced a repentant monarchy to join in the kind of full celebration of Diana's life that the millions of people who flooded into London demanded. Her sons, **William**, 15, and **Harry**, 12, stood in attendance, joined by their father, **Prince Charles** and her brother, **Earl Spencer**, as her body was taken into Westminster Abbey. Millions packed the city for the funeral of Diana. It was a crowd unmatched since the end of World War II. More than a million bouquets by official count were stacked outside the royal palaces.

Mother Teresa

Mother Teresa was among the most well-known and highly respected women in the world in the later half of the twentieth century. In 1948 she founded a religious order of Roman Catholic nuns in Calcutta, India, called the Missionaries of Charity. Through this order, she dedicated her life to helping the poor, the sick and the dying around the world, particularly those in India. Her selfless work with the needy brought her much acclaim and many awards, including the Nobel Peace Prize in 1979. She died at the age of 87 on September 5, 1997 of heart failure at her convent in Calcutta.

Janet Reno Attorney General

Attorney General Janet Reno was the first woman attorney general of the United States. She was first nominated by President Clinton in 1993, and she was appointed again in 1997. A graduate of Harvard Law School, Ms. Reno, 59, focused on the prevention of crime among the youth of the country and stressed early intervention to keep children away from gangs, drugs and violence. Late in 1997 she unveiled an advertising campaign urging the nation's youth to become involved in neighborhood crime prevention and community service.

John Denver

John Denver, whose optimistic songs catapulted him to fame during the 1970s, died instantly when his experimental plane crashed into Monterey Bay in California on October 12, 1997. The 53-year old singer had eight platinum records to his credit when his homebuilt plane crashed. "Rocky Mountain High" and "Sunshine on My Shoulders" were two of his trademark songs. "His music sprang from his feelings of love," said Hal Than, his longtime manager.

Dave Matthews Band

The **Dave Matthews Band** has demonstrated over the course of three albums and several years of extensive touring that it has staying power on the records charts. Combining elements of rock, jazz, funk, folk and world beat, the group is soulful and subtle in its harmonies and rhythms. Dave Matthews was born in Johannesburg, South Africa, and moved to Virginia about 10 years ago. He formed the group in 1990. They had intended to come up with a "power" name for the group, but the name stuck before they had time to change it.

Montserrat

The 11,000 residents of the Caribbean island of **Montserrat** witnessed first hand the devastation that a very active volcano can cause. The volcano belched ash and small rocks over several days in September and forced more than two-thirds of the biggest problems, especially for those evacuating the central communities of the island. The volcano on the British protectorate island became active about two years ago, and the latest eruptions caused most the population to flee to Britain or other Caribbean islands.

U.S. Women's Hockey Team

The U.S. Women's Olympic Hockey team won the Gold Metal in Nagaano, Japan, on February 17, 1998, defeating Canada 3-1. This was the first gold Metal awarded in Women's Hockey.

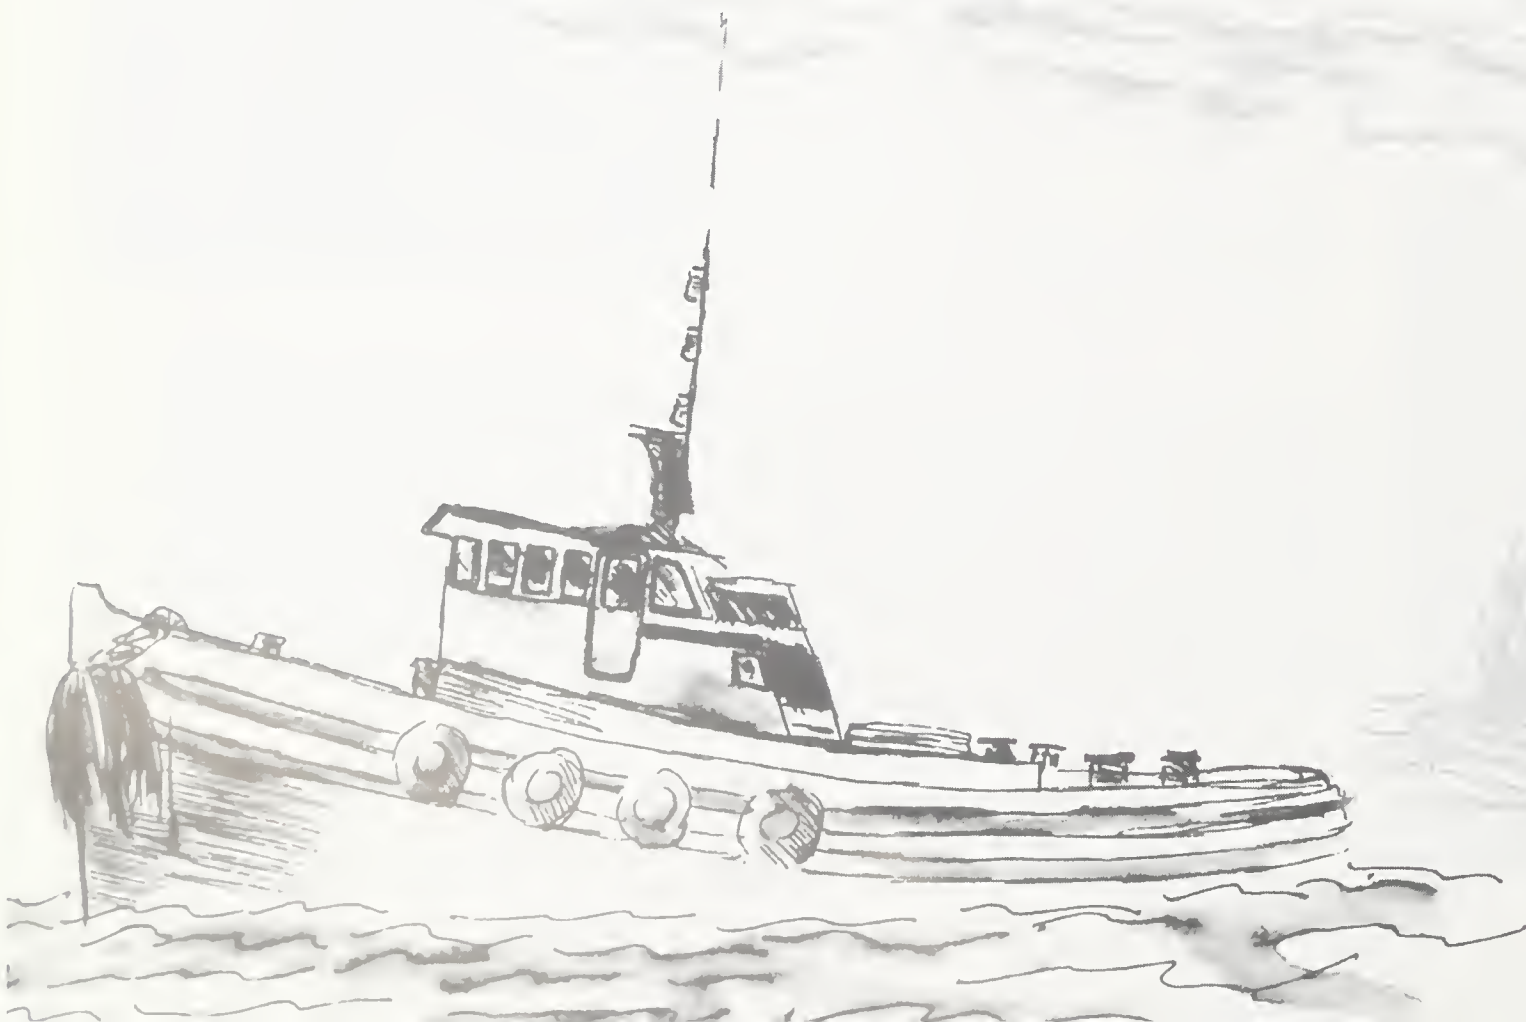

Phish (Trey Anastasio)

Phish has established an impressive reputation of tireless touring, dazzling improvisation and innovative rock and roll. And the Vermont-based quartet is the reigning "Jam" bad in the land, boasting one of the most devoted followings in all of rock. The group was assembled at the University of Vermont by guitarists Trey Anastasio III and Jeff Holdsworth. One of their claims to fame was to have the ice cream mavens Ben & Jerry honor the group with its own flavor— Phish Food, a tantalizing combination of milk-chocolate ice cream, caramel, marshmallow swirls and fish—shaped chocolate chips.

Whaling products

Modern commercial whaling, especially before whaling became internationally regulated and banned, has been concentrated on the use of whales for their oil and their meat. The oil gained from the thick blubber layers of all whales and the head of sperm whales was commonly used all over the world as a burning oil to fuel lamps, as specialized lubricants, as bases for margerines and cosmetics, and to make crayons, pencils, and candles. The meat became, and still is, highly desired by the Japanese and other nations, as well as aboriginal peoples. But since whaling became internationally regulated, many suitable substitutes for whale oil have become commonly used and have all but replaced the use of whale oil. The meat, however, continues to be used in Japan and possibly Norway.

Campus Events

Battle of the Bands

October 16, 1997

Friday evening featured a "Battle of the Bands" that was won by the group "Sub Vibe".

Homecoming Bonfire

October 16, 1997

After the Homecoming Parade UMass Students gathered around a huge bonfire. It was a much more relaxed atmosphere, from the events that surrounded the parade and it gave students a chance to regroup and get ready for the Homecoming Ratt.

Homecoming Parade

October 16, 1997

Once again Fraternities, Sororities and various other UMass clubs and organizations competed to design the best float for the parade. It is the foremost event of the school year and it is a day of fun and a way to show off school spirit for UMass Dartmouth Students.

Homecoming Ratt

October 17, 1997

Homecoming Weekend was one of the premier activities of the year. Alumni returned to the school to relive their "campus days" and to reunite with old friends.

Rocky Horror Picture Show

October 17, 1997

For someone who has never seen the Rocky Horror Picture Show, hopefully they did not pass up this opportunity when it was playing at the UMass Dartmouth Auditorium. Students who went were entertained and amused by the film/play, which had a two week showing at the campus.

Pumpkin Carving Contest

October 17, 1997

In the spirit of Halloween students gathered to compete and show off their pumpkin carving abilities. Students were creative and original in their pursuits of carving the perfect pumkin.

Octoberfest

October 18, 1997

Saturday's Octoberfest and Homecoming football game were exceptionally pleasurable. There was a large turnout to enjoy the beautiful weather and a variety of activities.

ORIGINAL
Coors
WELCOME
UMD HOMECOMING
OCTOBERFEST

Halloween Ratt

October 31, 1997

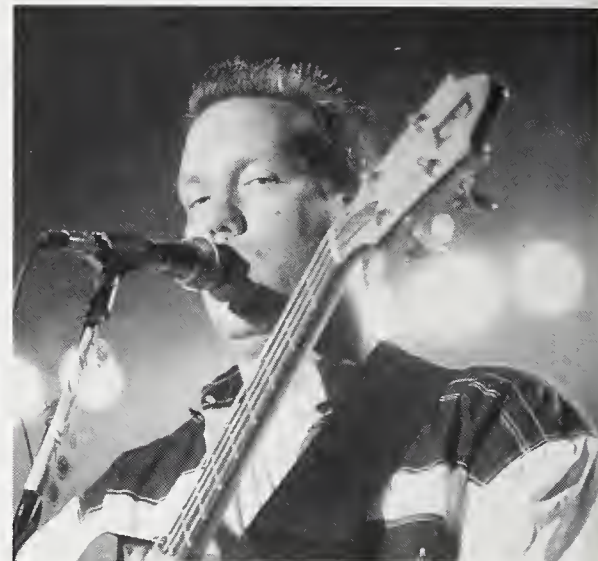

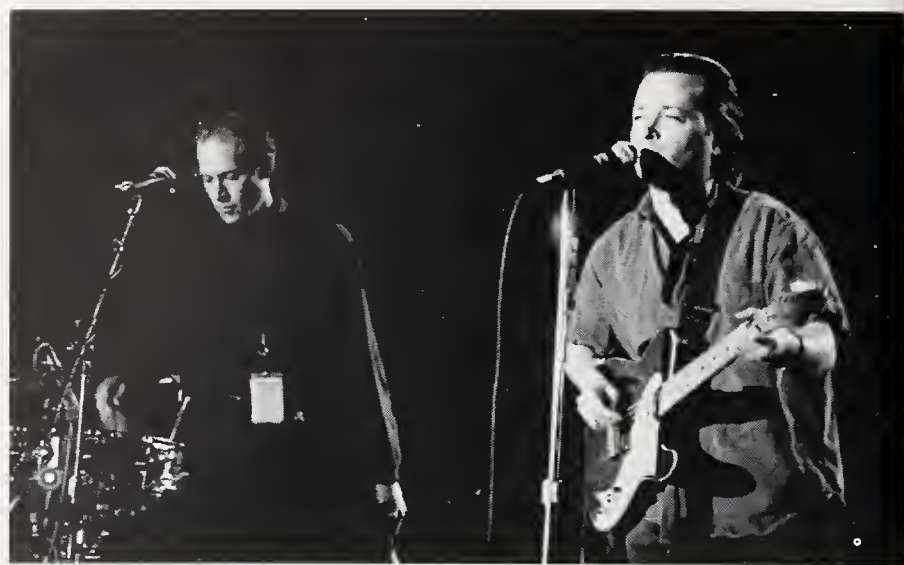

In the Sunset Room of the campus center, UMass students got together and dressed in their Halloween costumes, where they celebrated the "sprited" holiday.

Violent Femmes and Toasters

November 17, 1997

Who can't remember going through high school, a time when listening to The Violent Femmes was all you did on a really cool weekend? This concert gave students an opportunity to see the band up close and personal while reliving old times.

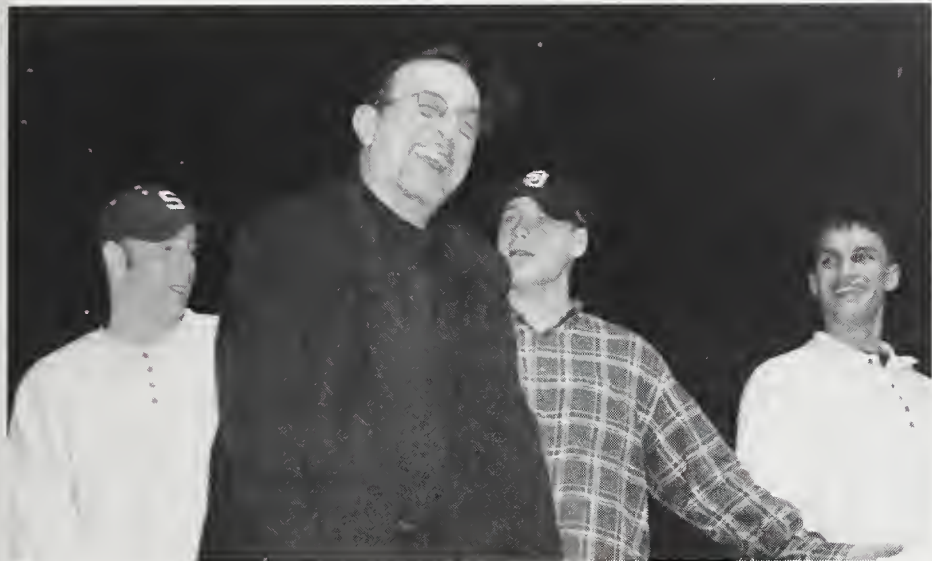

X-Rated Hypnotist

Jim Spinnato

February 3, 1998

A University tradition, Jimmy Spinnato entertained his audience with hypnotic demonstrations. "Listen to the music and my voice. You are getting sleepy."

Lakota Sioux Indian Dance

February 25, 1998

On February 25, 1998, the Lakota Sioux Dance Theater presented a program of traditional native dance. Sponsored by the University's Cultural Affairs Committee, the Lakota Sioux Dancers performance brought grace, style and a sense of spirituality to the campus. The dancers provided the audience a glimpse of the Native Americans' world and traditions.

100 Days Til Graduation Ratt

February 28, 1998

Seniors count down the days to graduation, but not only do they like to count to show off all they have learned in their many years of schooling, but they like to celebrate and party all along the way. This was one of the senior events that will long be remembered.

Jimmy Buffet Ratt

March 5, 1998

For all you Jimmy Buffet fans, this Ratt gave UMass Students a chance to sing along to all of their favorite Jimmy Buffet songs. These parrot heads got a chance to get "wasted away again" while sing "Margarittaville".

Spring Break - Bahamas

March 20 - 30, 1998

This year UMass students spent their spring break in the beautiful Bahamas, where they could lounge in the sun during the day, and party all night.

Senior Class Ratts

Have you ever told a friend from another school you were going to a Ratt and had them ask "What the hell is a Ratt?" You then proceed to fumble through an explanation of "Uh, well, it's this big party type thing on campus where everyone drinks a lot," trying to pretend you know exactly what one is. By this point you come to the realization that you have not a clue as to what the term Ratt exactly means or stands for. You think R.A.T.T. could be an acronym for something such as Really Awesome Teenage Torture or Rejected Adults Tear-

up the Town or maybe it was named after something that has long been forgotten.

Ratt actually is a shortening of the German word for beer hall, rathskeller. Rathskeller was the name of the original bar on campus. It was located on the bottom floor of the campus center in what is now the game room. It was the Sunset Room of 20 years ago. At some points it was just a beer and wine bar and at other times it was a full liquor bar depending on the political climate of the state and its drinking age law.

50 Days Til Graduation Ratt

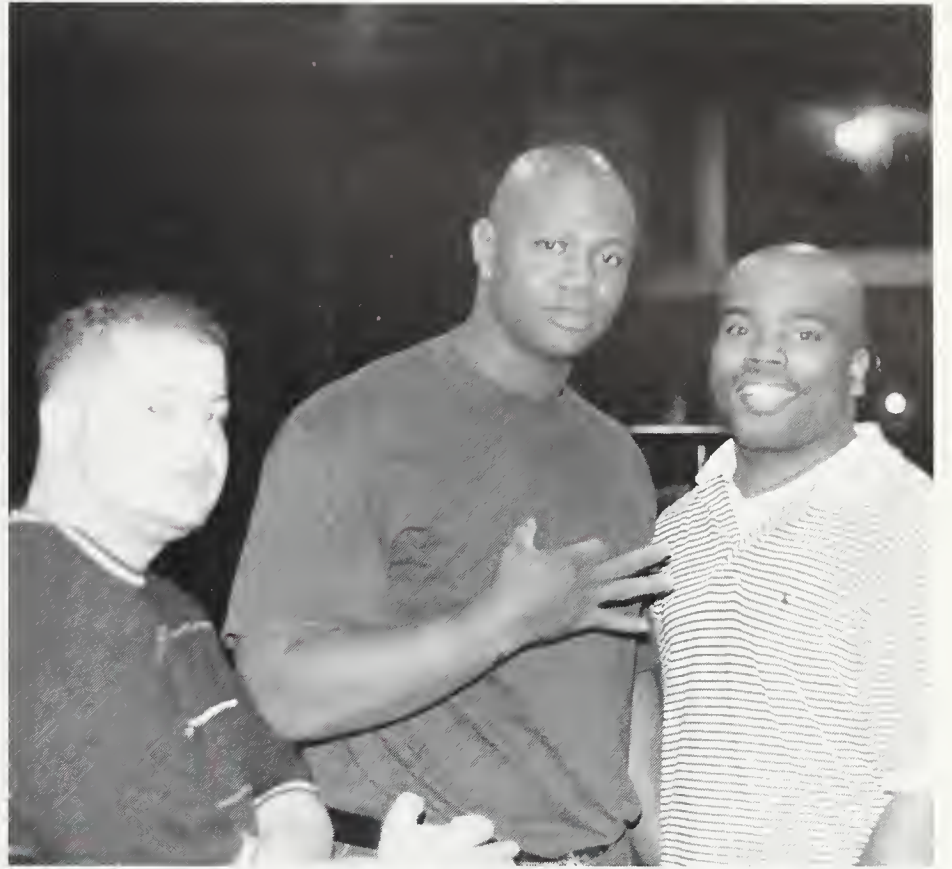

April 17, 1998

Only 50 days left until graduation and once again seniors are celebrating and are in a very high spirits.

Iota Phi Theta Jams

This was the jam of all jams this year. Iota Phi Theta sponsored this Ratt and students partied to the hottest Rapp, Club and Dance music.

Spring Ball

May 1, 1998

This years spring ball was held at Belcourt Castle, a mansion built in medieval style. Students were dressed like royalty as they viewed the splendid grounds, enjoyed the delicious buffet and danced with their dates.

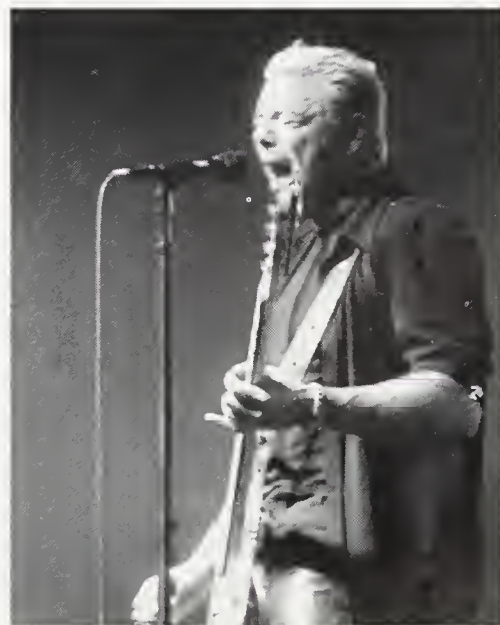

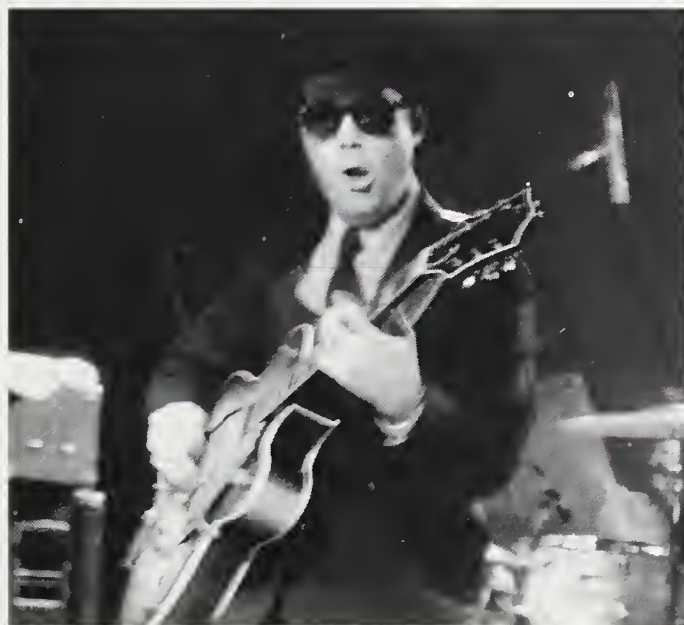

Royal Crowns and Mighty Mighty Bostones

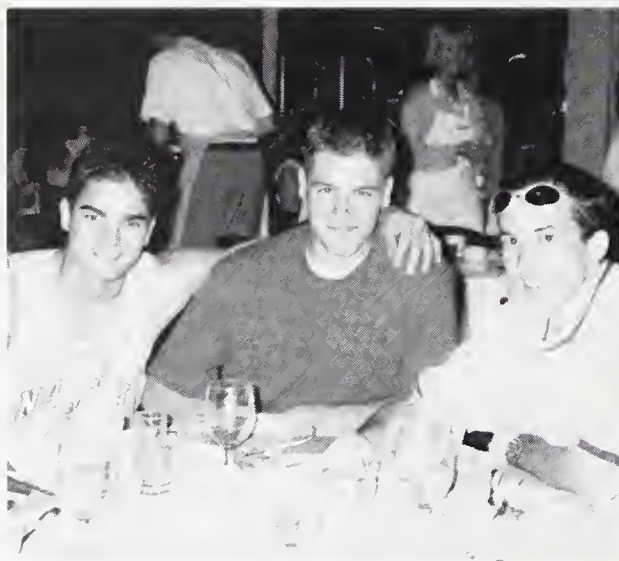

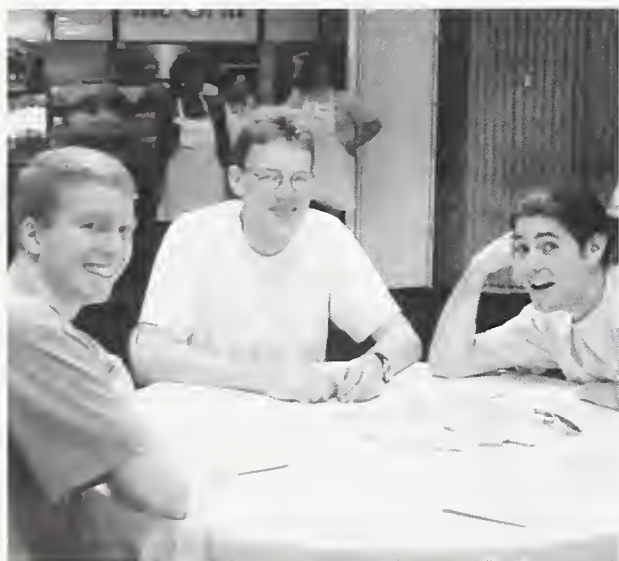

May 4, 1998

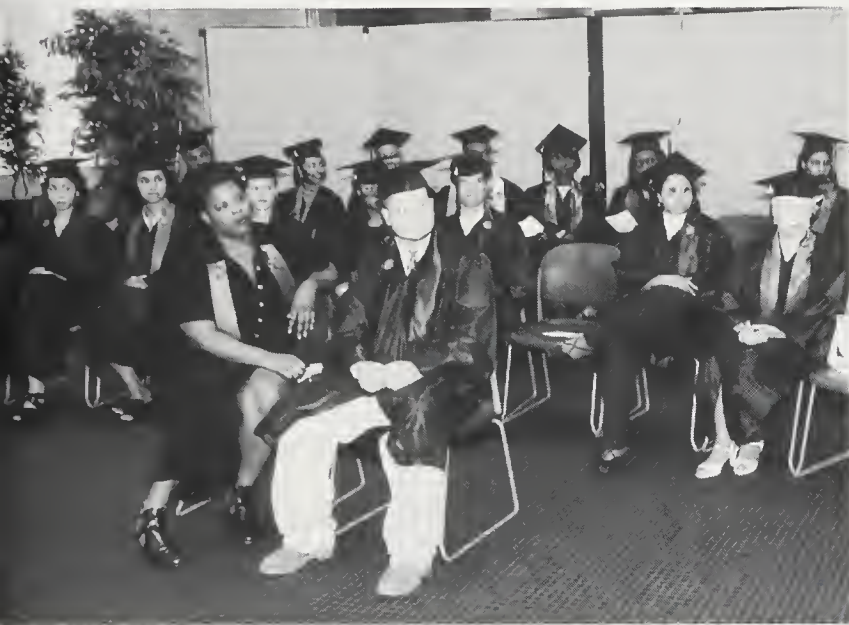

This concert was held during the spring semester. Students were body surfing and slam dancing to the Bostones powerful horn lines and incredible rhythm section.

Senior Pancake Breakfast

Well who would think that UMass faculty would be serving students breakfast? Yes indeed they did! It was a nice way for seniors to be with their professors out of the classroom before the whole college experience would end; at least the students thought it was a good idea!

Frederick Douglass Unity House

2nd Annual Students of Color

Graduation Banquet

May 31, 1998

The FDUH Graduation Banquet continues a tradition begun over 25 years ago. Its purpose is to celebrate the academic achievements of students whose heritage is rooted in Africa. The celebration is also a cultural and communal sharing of our student's accomplishments. Awards were presented to 5 students, one in each of the colleges, for academic achievement and 5 for service to the university community and especially to Disapora Students.

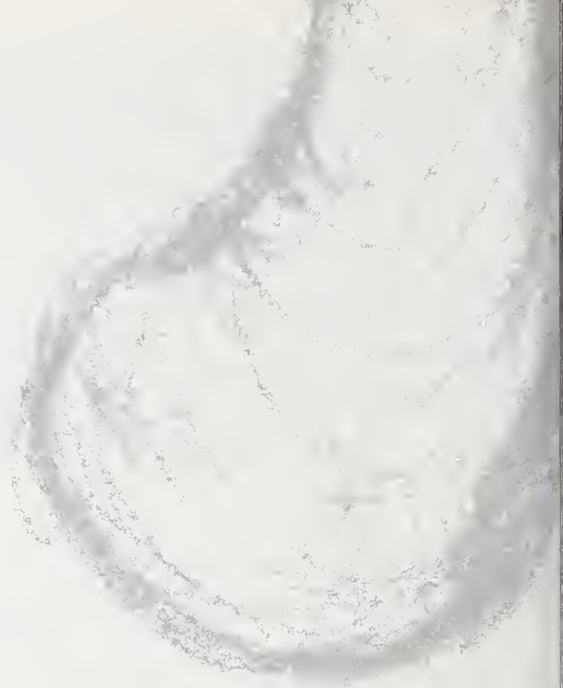

Carl Bernstein

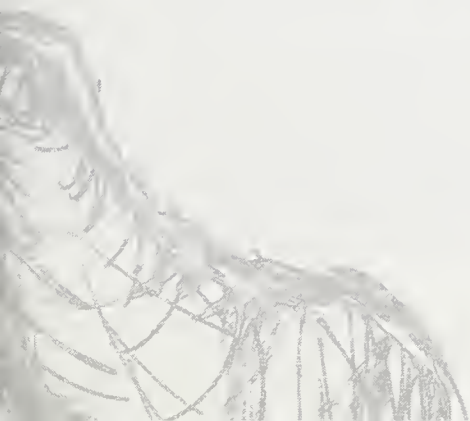

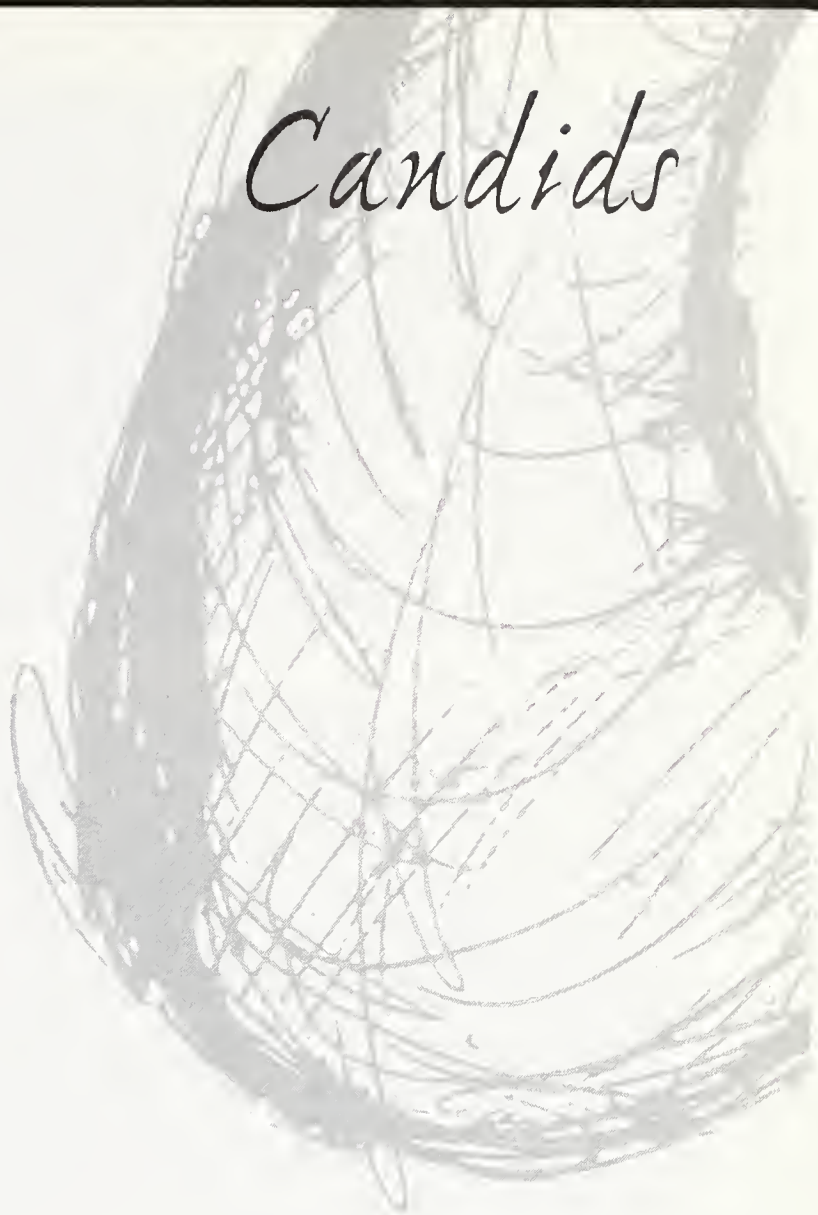

Watergate

"Where is the leadership in journalism today?" was the question posed by Carl Bernstein at his November 5, 1997 lecture. Mr. Bernstein, one of the reporters who broke the "Watergate" story, presented an eye-opening insider's view of journalism today.

Candida

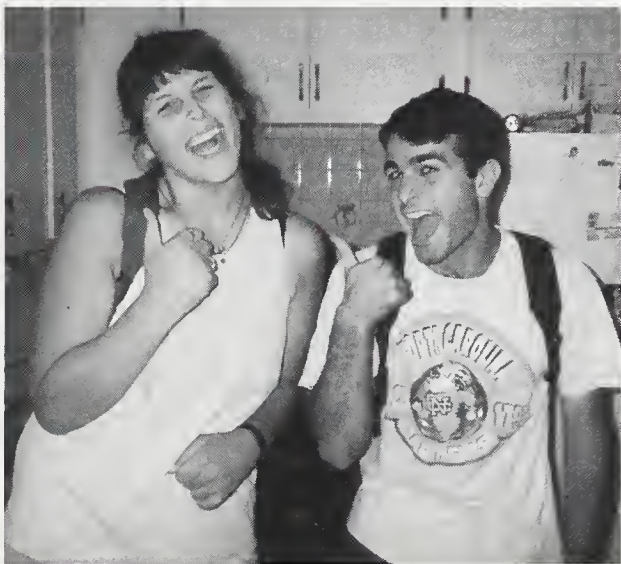

Modern Whaling

Whaling has been practiced by humans for hundreds of years. The Basques seem to have initiated it around the XI Century and it was expanded and perfected by fishermen from other nations, including the U.S. from the XVII Century on.

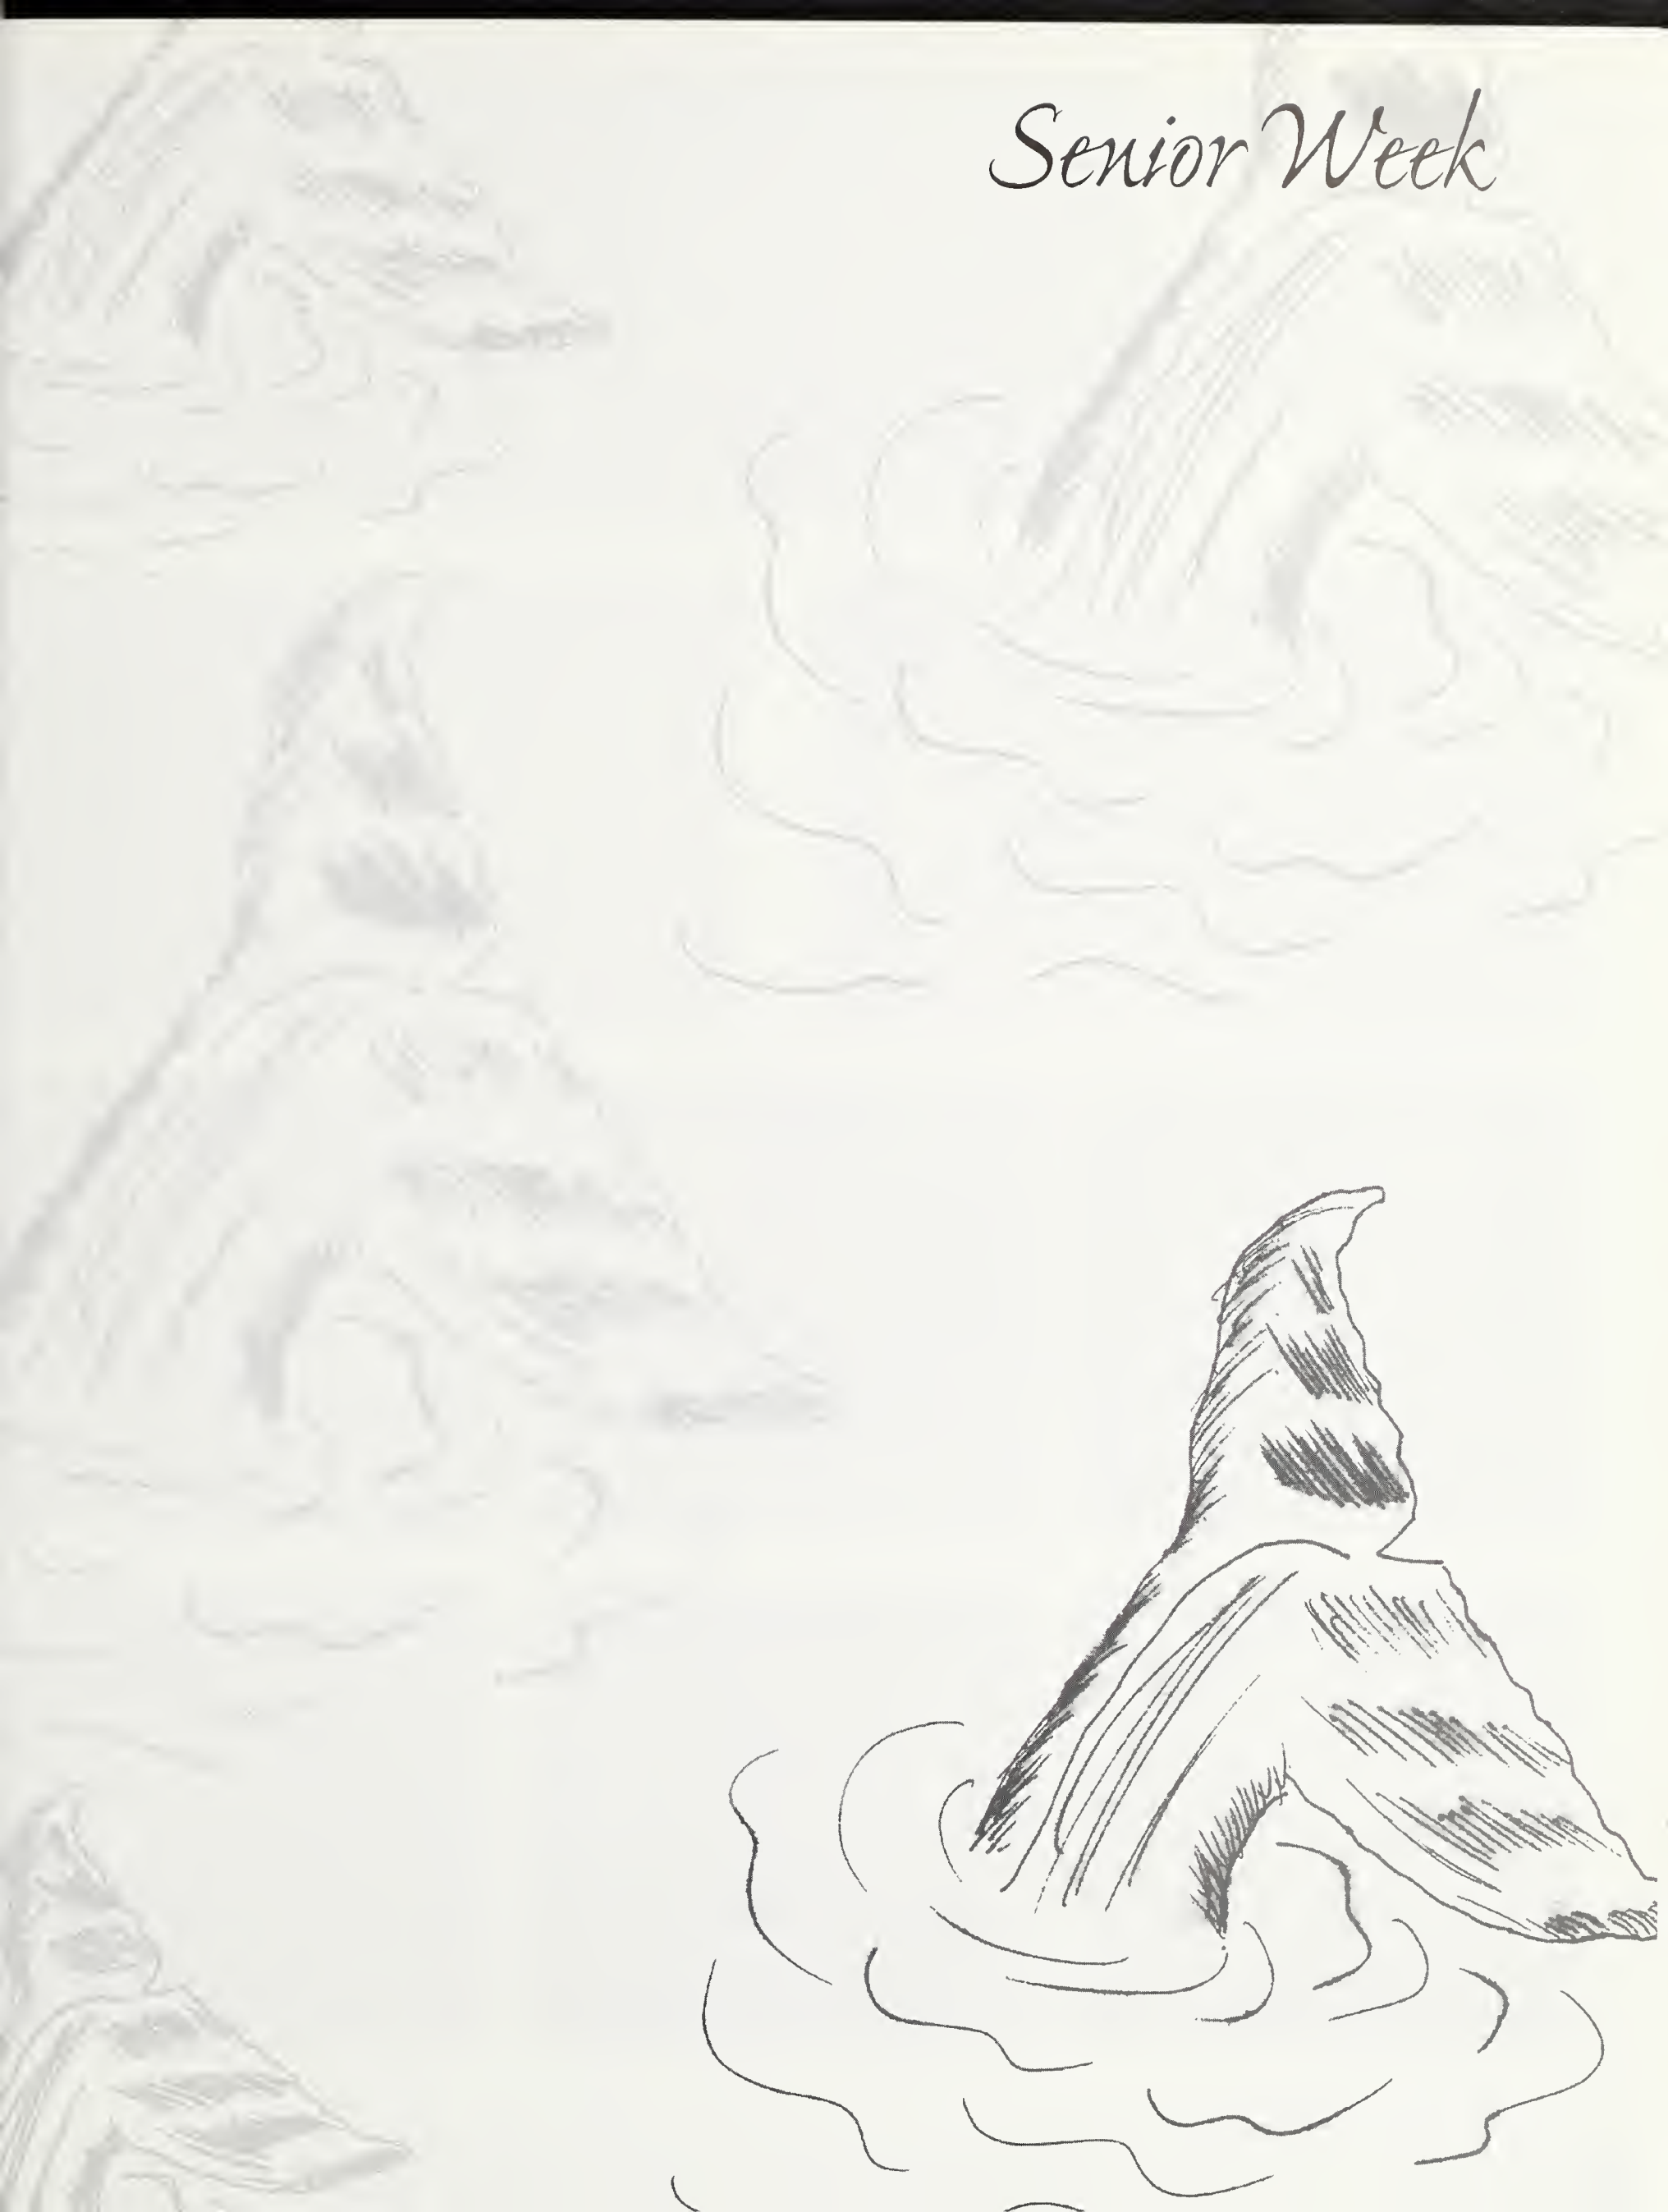

Today the basic technique consists in the use of a harpoon launched from a whaling ship using explosives. The harpoon head itself usually has an explosive that detonates once it hits the whale. Some artisanal whaling is still practiced using hand-held harpoons.

In recent years most nations that are members of the International Whaling Commission have complied with its resolutions to ban commercial whaling. Still nations like Japan, Norway, and Iceland continue whaling and kill several hundreds of these animals every year, sometimes under the excuse that they do it for scientific reasons (although the whale meat finds its way to supermarket in some countries). There

is even an increased tendency by other nations to soften their stance against whaling based on several premises: a) that the populations of some species such as the minke whale are abundant enough that they allow the resumption of their capture; b) that whaling by "aboriginal" people who used to kill whales in the past is part of their "cultural heritage" and, thus, should be allowed even if that capture will not change substantially the living conditions of those peoples; c) that coastal whaling should be permitted since it will benefit local fishermen. Many nations from small islands in the Antilles to the U.S. itself, have been leaning in favor of the above-mentioned arguments. On top of that there is "pirate whaling," i.e., whaling being conducted by ships whose registration and port of origin and/or destination is unclear and for which statistics are difficult to obtain. Since the International Whaling Commission lacks enforcement power, there is little what they can do. Only a handful of non-profit organizations such as Sea Shepherd are acting against such activities.

Senior Week

Booze Cruise

June 3, 1998

The sun was going down over New Bedford as the class of 1998 left the Bay. The music played over the water and the students danced, sang and talked to friends about old times.

Red Sox Game - Fenway Park

June 4, 1998

The class of 1998 traveled to relive their childhood at Fenway Park college style. They did the wave, ate a zillion hot dogs and remembered the first time they saw the Green Monster.

Boston Nighlife

June 4, 1998

The evening began with a terrific win by the Red Sox at Fenway Park. The game was followed by a trip to Landowns Street where the crew of students visited Jillians, Mama Kins, Jake Ivory's, Cask and Flagon and danced the night away.

Seniors Graduation Honors Dinner

June 5, 1998

The awards that were bestowed on so many deserving students were warmly appreciated by graduates, faculty and family members attending the dinner. Adam Werbach, Sierra Club President at the age of 23 gave an inspiring message. Essentially he said to let your gifts and your own unique vision guide you in your career choices and also in your journey through life.

Last Ratt

June 5, 1998

"Those were the days, my friend,
we thought they'd never end."

Midnight Barbecue

June 6, 1998

Cedar Dell has never seen a party like this: the roofs were climbed, furniture moved outside, a large bar set up and a terrific band. The class of 1998 was definitely out of control the night before graduation.

"Journeys"

Commencement 1998

Beth Murphy

Senior Class President

Good afternoon... faculty, administrators, friends, family, distinguished guests, and you, the Class of 1998.

Over the past few weeks I came across many quotes and sayings that I could use to express my feelings with you today, but it was this Chinese proverb that said it best, "A journey of a thousand miles begins with a single step." UMASS Dartmouth has served as a single step in our journey of life.

Today is the celebration of that single step. When we took that step most of us didn't know where our feet were going to land. But, today we know that we have landed and with both feet on the ground. Our goals and aspirations may have changed but we are here, and that means that we have taken that single step, and what a step it has been.

Through these years we have gained an enormous amount of knowledge. But this knowledge is only the beginning or a base of what we will learn in the world after college. Yes, this university has made its best attempts to prepare us for that

outside world, but their attempts will never be enough. Each and everyone of us has had a different and unique experience here at UMASS and will continue to do so in the future.

The educational segment will remain with us, or at least most of us hope it will. If not, we will still have old notebooks, exams, and of course, those books that the campus store wouldn't take back! This education is what we or our families put thousands of dollars toward, but it is not how most of us will remember UMASS Dartmouth. Each graduate will remember UMASS Dartmouth in their own way. Not necessarily by the degree we will receive today, but by the journeys we have traveled and the journeys we will travel.

A close friend of mine gave me a poem that I thought was appropriate for this occasion and I would like to share it with you...

The Journey

In your mind, in your heart, in your soul, in the very center of who you are, is a vision. You are on a long trip; it spans all the territory familiar to you. You look out the window and distractedly take in the passing scenes of farms and people, of children waving and grandparents on front porches, of flowers and fields and hills and lakes, of city skylines and village steeples.

But what is foremost in your mind, your heart, your soul? Your *destination*. On a certain day, at a certain hour, you imagine that you will pull into that station. Bands will be playing, flags will be waving. You will have arrived!!! And when you get there, all of your wonderful dreams will have come true. The puzzle pieces of your life will magically fit together; the picture will be all you've wanted it to be. And until the station arrives, you look out the window some more. You pace the aisle, you watch the clock, and curse time that passes, time that keeps you from getting there.

"When I get there - that'll be it!" you say confidently. "When I'm 21." "When I get my new Miata." "When I get a job and make my first \$100,000." "When I'm finally on my own." "When I meet the Right One. Then everything will be okay and I'll live happily ever after."

Commencement

Sooner or later it will hit you, though. You'll realize that there is no station, no one place to arrive at once and for all. The whole point of the trip was the journey itself; that is where the joy is to be found. That is where the fulfillment is. The station is only a dream; it will constantly outdistance you.

Relish the moment; above all, **carpe diem**. Rejoice and be glad in this day. In the end, it won't be the stresses of today that will drive you to madness and sadness; it will be the regrets over yesterdays and the fears of tomorrows. Regret and fear; be on guard. These demons will rob you of today.

So stop pacing the aisles and watching your watch and counting the miles. Go out and plant more seeds. Smell more roses. Eat more ice cream. Even get up for a sunrise and take in all of the colors. Laugh lots, cry little. Your life is *extraordinary*; live it that way!

And above all, **carpe diem**. Life must be lived as we go along. Your station will come soon enough.

-based on Robert J. Hastings

In our journey here at UMASS we have all had close friends and family whom we are grateful to. Being the tenth of eleven children, I have often wondered how I got this far and how I was able to make this step and the ones before today. And I realize that it is because of them...my family, that I am here today. Especially my mother and father who I will be forever grateful to. Their love and support has carried me through the best and worst of times. And I know that they will be there for me in all of my future steps in life.

Could you please join me, the Class of 1998, in a round of applause in appreciation of our friends and families who have supported us through these years.

A special thanks to our fine leadership this past year; Sean Carpenter, Student Trustee; Terrence Dolan, Student Senate President; and especially my

fellow class officers Chad Cabral, Lisa Coffey, and Jennifer Reardon. I would also like to give a special thanks to Dean Donald C. Howard. His time and dedication to the Class of 1998 has proven to be an inspiration to us all. My eternal love and gratitude to Dan and Amy. Thank you for all your love and support, I couldn't have done it without you.

In closing, remember, we may have been sent here to learn from the faculty, but it can be considered that we learned the most from our peers.

Congratulations Class of 1998!

There sits on the bookshelf, behind my office desk at the University, a framed statement, anonymously written, entitled **My Creed**. It was given to me by a dear friend, Barbara Bell-Nay, SMU Class of '78, because she felt it not only expressed something of her own personal life view but mine as well. She was right. It does. I pass it along to you for whatever saner, more sensible understanding of life's mystery that its simple insights and recognitions may evoke in you as does in me.

Donald C. Howard
Dean of Students

My Creed

In some way, however small or secret, each of us is a little mad... Everyone is lonely at bottom and cries to be understood; but we can never entirely understand someone else, and each of us remains part stranger even to those who love us... It is the weak who are cruel, gentleness can only be expected from the strong... Those who do not know fear are not really brave, for courage is the capacity to confront what can be imagined... You can understand people better if you look at them, no matter how old or impressive they may be, as if they are children. For most of us never mature; we simply grow taller... Happiness only comes when we push our brains and hearts to the farthest reaches which we are capable... The purpose of life is to matter, to count, to stand for something, to have it make some difference that we lived at all...

old whaling terms

Duff: pudding made out of flour and water.

Dyspepsia: indigestion.

Fast: to attach securely to a whale.

Figurehead: an ornamental figure on the front of a ship

Finback: variety of whale.

Fluke: whale's tail.

Forecastle: living quarters for crew.

Fox: twisted rope fibers.

Furl: to roll up and secure.

Gale: continuous wind.

Galley: kitchen.

Gam: to exchange news.

Junk: salt meat that has become hard; a Chinese or Japanese boat.

Lagerhead: a variety of whale.

Lance: spear with razor-sharp blade.

Laying off: anchored offshore.

Mizzen: the third mast of a boat.

Mother Carey's Chickens: a little seabird which follows ships.

Nettles: twisted rope yarns.

Raise: to come within visibility of something.

Reef: to shorten sail area.

Rigging: ropes.

Royal: top-most mast on the ship.

Scupper: drains from the waterways of the deck.

Sound: to sink below the water.

Speak: to communicate with another boat.

Standing away: to sail away from.

Starboard: right side of the boat.

Stay: rigging used to support mast.

Stern: the rear of the boat.

Studding sail: light sails.

Tarring: to apply tar to masts, etc. for protection from weather.

We are sure you know how so special
you really are to us . . .

Your birth, your growth, your
understanding, your position in the
family, your education and now
your graduation.

You are just **UNIQUE** in all.

We love you.

Remember, greater heights are ahead
of you. Be confident of the fact that **HE**
who had helped you thus far, will not
leave nor forsake you. He will continue
to help you till you have fully
accomplished his purpose in you life.

CONGRATULATIONS

MOM & DAD

Heather L. Lamothe

Great job, Heather!

You did it, and we're very proud of you!

You set your sights high, and you're
reached your goal!

From lowly freshman to
Housing Commitee to
Resident Assistant to Hall Director.
Besides classes and working and
being a friend!

And you haven't stopped yet!

Anything you choose to do,
you will succeed because you have
the power and the desire and the
determination within you.

We all love you and are very proud of you!

Mom, Dad, Jason, Grandma Mae,
Joann, Micheal, Sarah.

Grandma Flo and Alexis are
smiling down on you, too!

Suyu Leong Congratulations!!!

You did it.

I'm so proud of you.
All my love and best
wishes for a happy
and bright future.
Thank you for coming
into my life
and for being my wife.
Love always Tim.

Lisa A. Medeiros Congratulations

on your graduation.

We are proud of you
dedication and accomplish-
ment. Though your hard work
you have become the first
person in our family to
receive a college degree.
We wish you continued
success in the rest of
your life's endeavors.

With Love, Mom & Dad

We'll walk in the rain
by your side -we'll
cling to the warmth
of your tiny hand
we'll do anything to
make you under-
stand, we'll love you
more than
anybody can.
Mom & Dad

Elisabeth Polochick

You are who you are,
who you are you are,
You are where you are,
where you are you are,
You did what you did,
what you did was great,
Loving you has been
the adventure
of a lifetime,
I'm so proud of all
you've accomplished

Jason M. Vining

Our most sincere
Congratulations
and best wishes
for you success!!
You have been nothing less
than much joy in our lives, you
certainly know how to
make us proud.
Our best wishes,
Love and support
will be with you always,
Mr. Vice-President
We love You,
Dad, Jo, Stacy, Sammy /Zack

KRISTEN M. RUSSELL, B.S.

You've traveled far
to get to this lofty
new place of yours...
How do you like the view
from the High Road?
We love you, baby girl.
You make us very proud.

Great Job!

The future is Yours!

Love, Mom and Dad

Shannon M. Belloni

We're very proud of our "honor student". You've worked hard and you deserve it. Good luck in the grad school. Keep up the good work and good things will come your way! Love, Mom, Dad, Cheryl, DJ, Alysha, Zachary and Trevor.

Sarah A. Mangrum

Congratulations and thanks for another happy memory.

We are so proud of you.

All our love.

Mom, Dad & Spanky

Lynne S. Mercier

Best of Luck to a great math teacher. We're so proud of you.

Congratulations, Lynne!

Love, Mom and Dad

Heather E. Mulry

We are all so proud of you!

With all our love forever -

Mom, Dad and "Chauncey"

Elizabeth B. Polochick

"Miss Liz of America"

You did it and a thousand words could not leave so deep an impression as one deed. Although I was 1,000 miles away it feels like we did it together. You're my mom, my best friend, and my main source of high quality mail. I love you and am so proud of you.

God Bless, Dr. Brian M. Polochick.

David H. Scully

Congratulations!

We are very proud of you.

Love Mom and Dad

Anna and David Scully

Lauren M. Stentiford

To be successful, you must love what you do. Laurie, you are on your way.

We are proud of you.

Love, Mom, Dad & Michelle

Amy Ronco

Amos, A new 4 year record to out do the brothers Ronx! Congrats - May all your dreams come true -

Time to sail the oceans and find the sharks! Much Love, Mom, BJ,

Paul & Kev

Dear Becky,

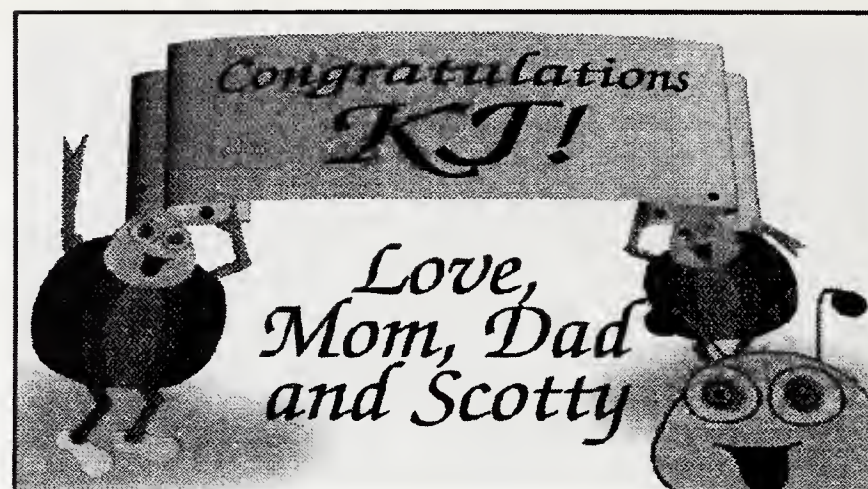

Surprise! Just wanted to let you know how extremely proud of you we are. You're a terrific daughter! With your talent, education and determination you can accomplish anything you set out to do. Wishing you much success in your future and many congratulations on your graduation.

Lots of Love, Mom & Dad

Through the years it has been tough, but you stayed with it.
I am very proud of you. You did it. Love, Justin

Lindsay A. Skirven

The family of Lindsay Skirven wishes her the best in the world.
We love her and are very proud of her. Congratulations!

Shouping Tang

I love you - to my parents, wife and daughter. I'm proud of you!

Rebecca Lynn Schwartz

What do you say to someone you have nurtured and watched grow for a quarter of a century? Is there anything else left to say? I think that there is.

In the eyes of Carl Sandburg in Man the Moon Shooter, we humans are moon shooters: restless, roving, inquisitive creatures, ever striving for unknown futures. There is no real stopping place, no status quo always the next set of challenges and the winds of change yet to come.

I know that wherever your journey leads you that it will be a challenging and exciting one. A parent always wishes for their child the greatest success, good health and above all true happiness. Finding a meaningful purpose and path in life allows you to realize those other possibilities.

I want you to know how proud I am of you and your accomplishments and I know you will experience a bright future. With all the love and support possible - go out into the world and be your own moon shooter.

Love, Mom

Rebecca entered my life about five years ago, and has added her enthusiasm to make it more exciting. She has boundless energy, which sometimes is difficult to channel. She demands much of herself and expects the same from others. As she enters "the real world", I feel certain that she will learn its lessons well and will make her mark in the field of her choice. Best of luck, health and happiness now and in the future.

Love, Tony

Dear Rebecca,

Congratulations on Graduating College. It was a lot of hard work, but I new you could do it. But now it's over and there will be no more phone calls at 2:00 AM from you. Now that it's all over we can get on with the rest of our lives, together. I really mean that, just bare with me and give me time.

Love Ya, Ross

Rebecca,

Your journey as a student has taken different trails and these parents have felt the bumps you've made on your road to success. Marion and I are very proud of you, your perserverance as well as your talent. When you asked for a 35mm camera, many years ago, we had no idea that your eye, behind a used Minolta SRT 101 would "develop" such artistic results.

Your Future is now. Graduation from college affords you the opportunity to test the many lessons you have learned.

As your new journey unfolds, please, continue to remember your roots, for it will surely give your branches strength.

Love, Dad and Marion

I take this chance to congratulate you on your graduation from UMass. I am very proud of you and the work you have done. I pray that you will find happiness and a great sense of worth of who you are. May you find meaningful work in your field, always be surrounded by family, friends and relationships that bring out the love within each of us. Savor the moments each day. I love you and wish only the very best for you always.

Love Always, Aunt Alice

Annie Irene Pickert

You shall pass through this world but once,
If, therefore, there be any kindness you can
show, or any good thing you can do, do it now.

Do no defer it or neglect it,
for you shall not pass this way again.

We are so proud of you

Love Mom, Dad, Melanie,

Jennifer and Gramma

Jill Anne Delahanty

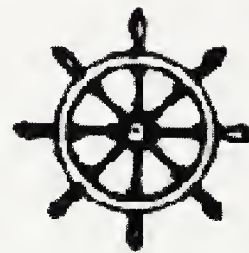

We can't believe what a beautiful
grown woman you have become -
inside and out. We are so proud
of you and for all you have accomplished.

Go into the world and enjoy yourself,
work hard, be kind and generous and
you will succeed in everything you do.
If you can dream it, you can make it so ...

We love You,
Mom & Russ

We
contemn this benefit
of carriage by waters
& live
like so many boars in a sty
for want of vent
&
utterance.
– Robert Burton.

Letter from the Editor-in-Chief *Rebecca Lynn Schwartz*

Congratulations to the **Class of 1998**. I appreciate the opportunity I had to attend school in New England. It is truly a beautiful place. My favorite past time was watching the sunset over Horseneck Beach and I sure will miss those magnificent skies. It seems like yesterday we were freshmen or transfers, trying to fit in, dealing with financial aid or wondering how all our credits would be fulfilled by graduation. Now our college years are over and it is time to continue along our journey in life. We all have been through a great deal and all of us should be proud of what we have accomplished. Sometimes it seemed like it was impossible, but we all made it.

UMass Dartmouth has brought all of us many fond memories to look upon as well as this yearbook. A lot of hard work, stress and tremendous effort has been put into this book so I hope all of you will enjoy it. It has been a pleasure producing it. We don't know where our lives will lead us, live each day and savor the moments because that's what really matters in life.

I would like to thank my parents (Mom, Dad, Marion and Tony) because without their love and support I would of never made it . . . Thank you and I Love You. To my friends Nicole, Ross, Becky, Katie, Steve, Jill, Annie, Ernie, Allison and Melissa who always supported me, Thank you for all you've given me as a person. Ross, my love, I love you and I am looking forward to a bright life together and I will be forever grateful.

I would like to thank Dean Howard for his dedication and his persistence for the completion of the yearbook. Noravil Garnett and Caren Orlick gave me great guidance along the way.

In conclusion I came upon this quote that inspired me.

Take one day at a time and string all those days together like precious things they are... instead of trying too hard and promising yourself too much. I can't promise you today with the hope and belief that there is a beautiful tomorrow in store for you.

- Dean Walley

Good luck and happiness in all of your future endeavors.
